 soft between uc
 Accelerations: present
 Decelerations: absent
 Baseline: 145 (15 min)
 LTV: moderate 6-25bpm

Contractions: every 5 - 6 minutes
[...]

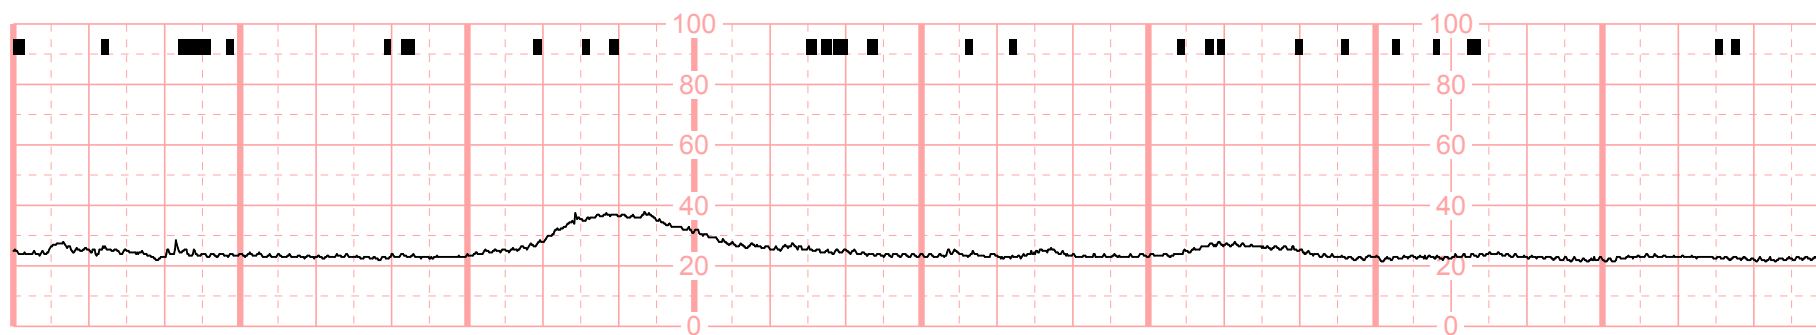

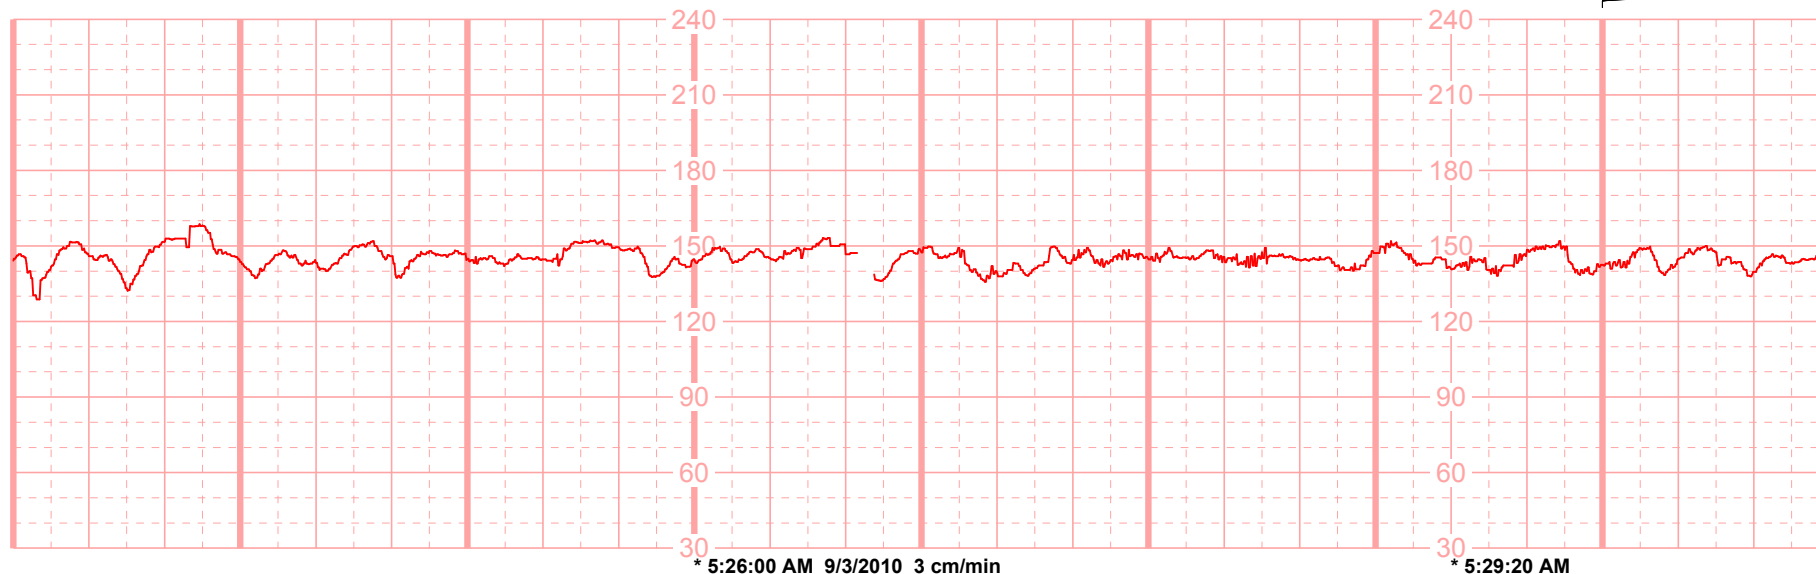

Contractions: every 5 - 6 minutes
 Contraction intensity: strong
 Contraction resting tone: palpates
 soft between uc
 Baseline: 145 (15 min)
 LTV: moderate 6-25bpm
 Accelerations: absent
 Decelerations: absent

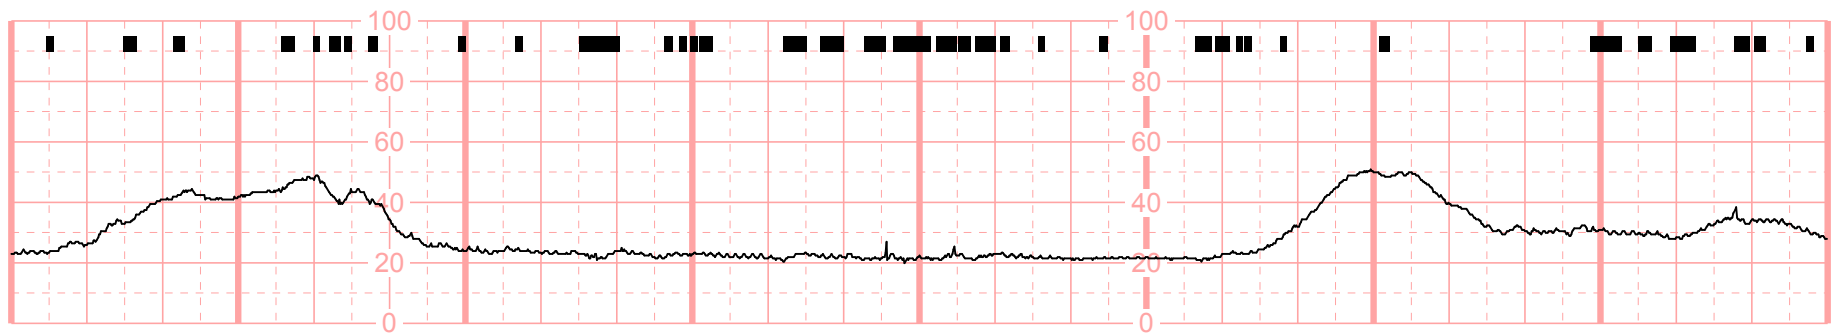

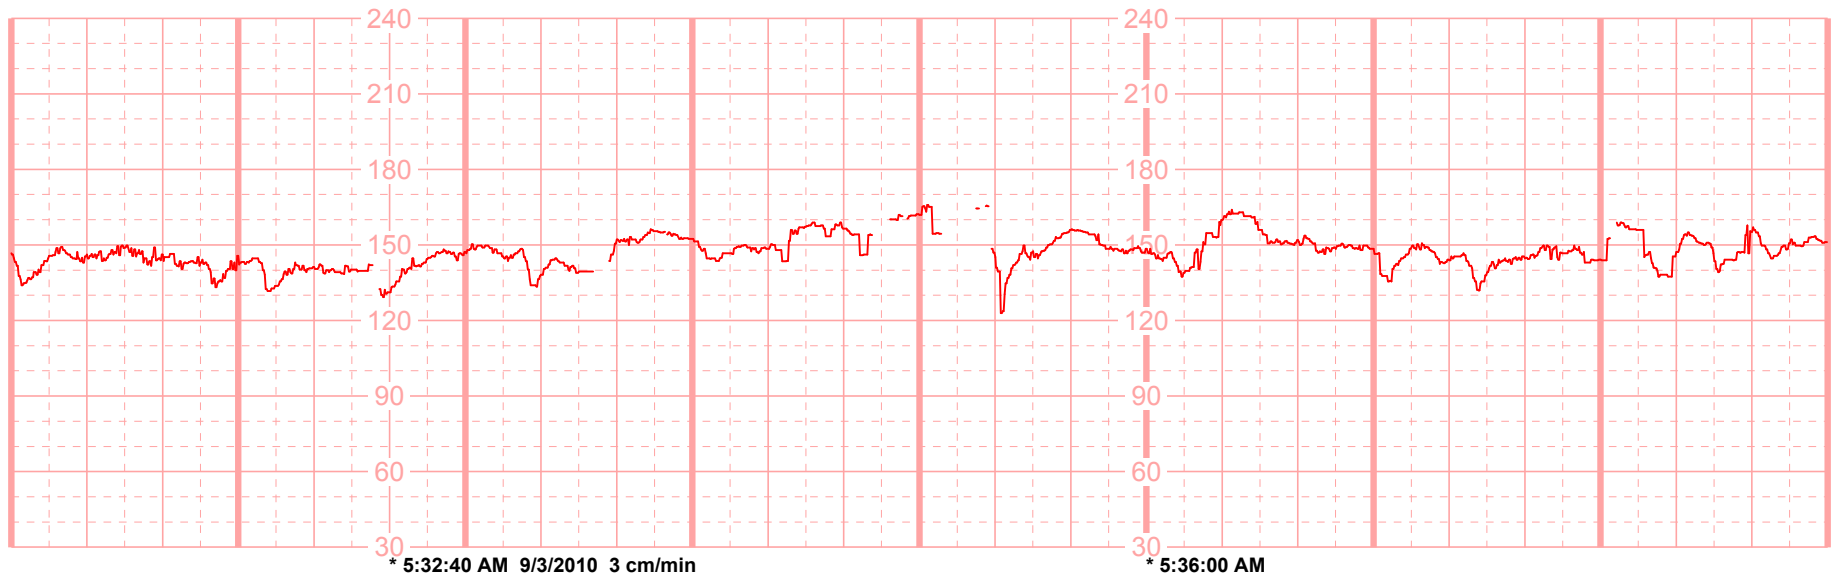

Terbutaline: 0.25 mg

Remarks: 2ND DOSE OF
 TERBUTALINE GIVEN IN RIGHT
 UPPER ARM. PULSE WNL.

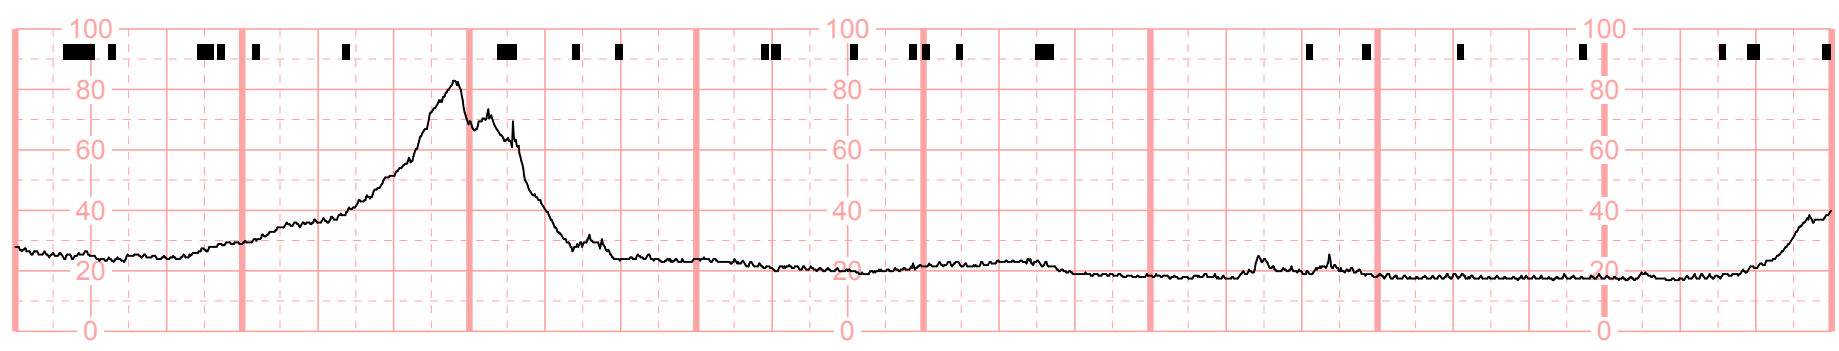

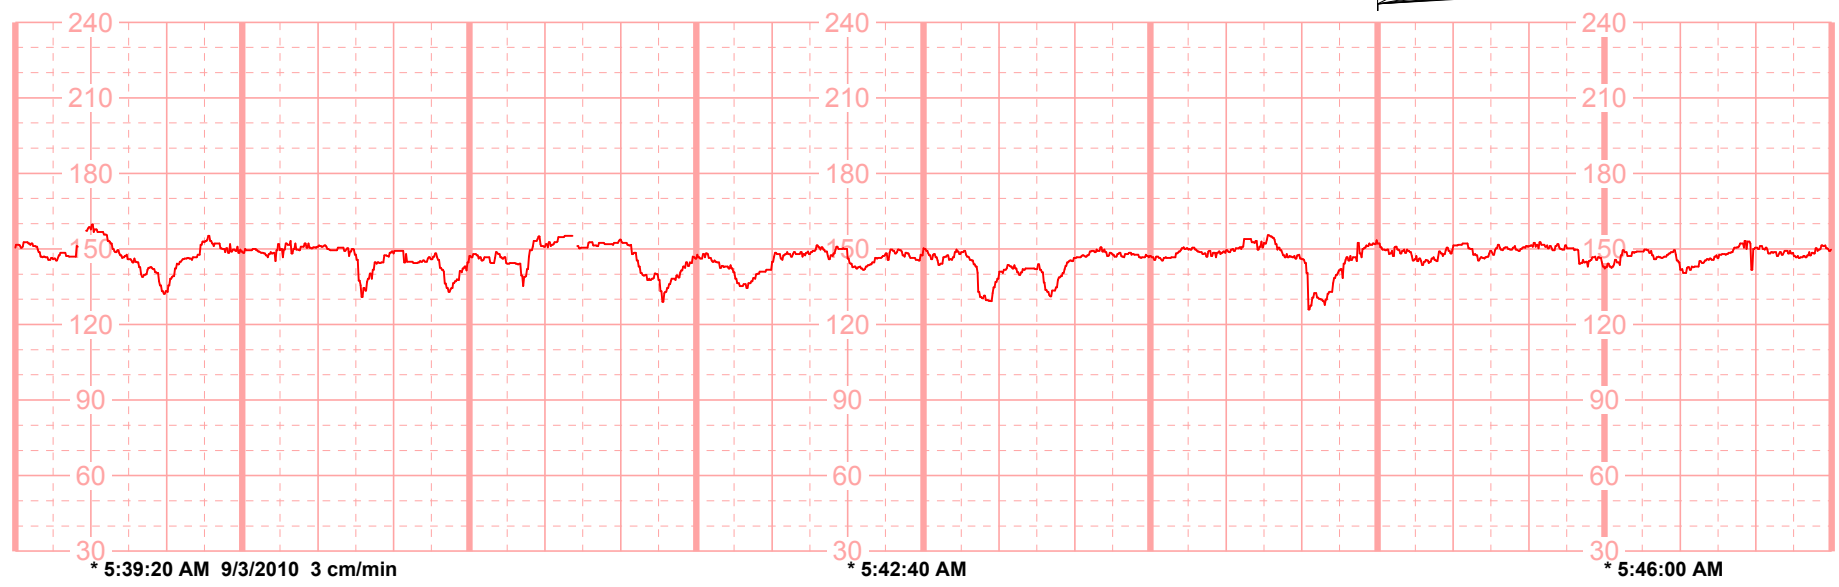

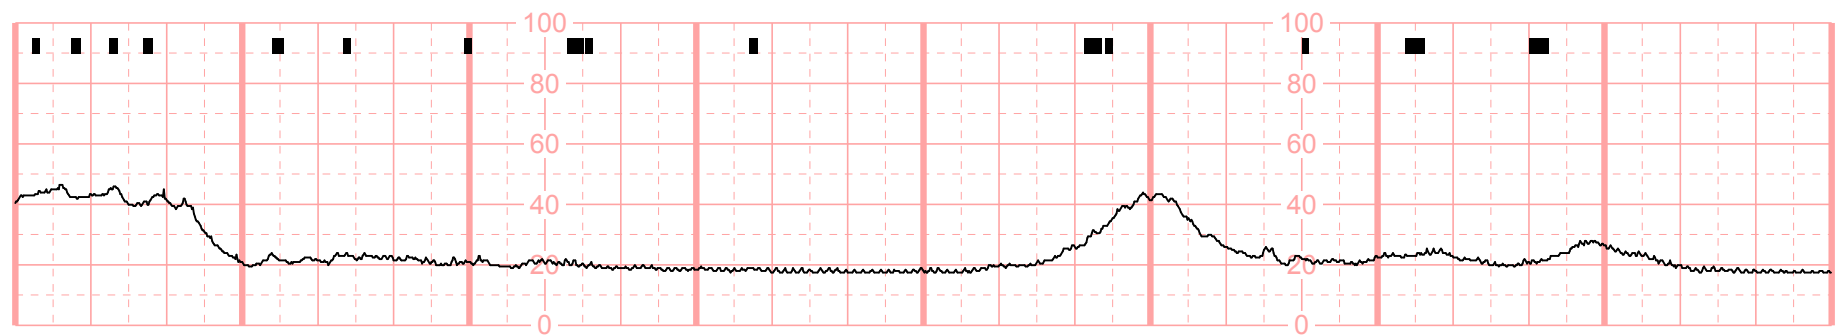

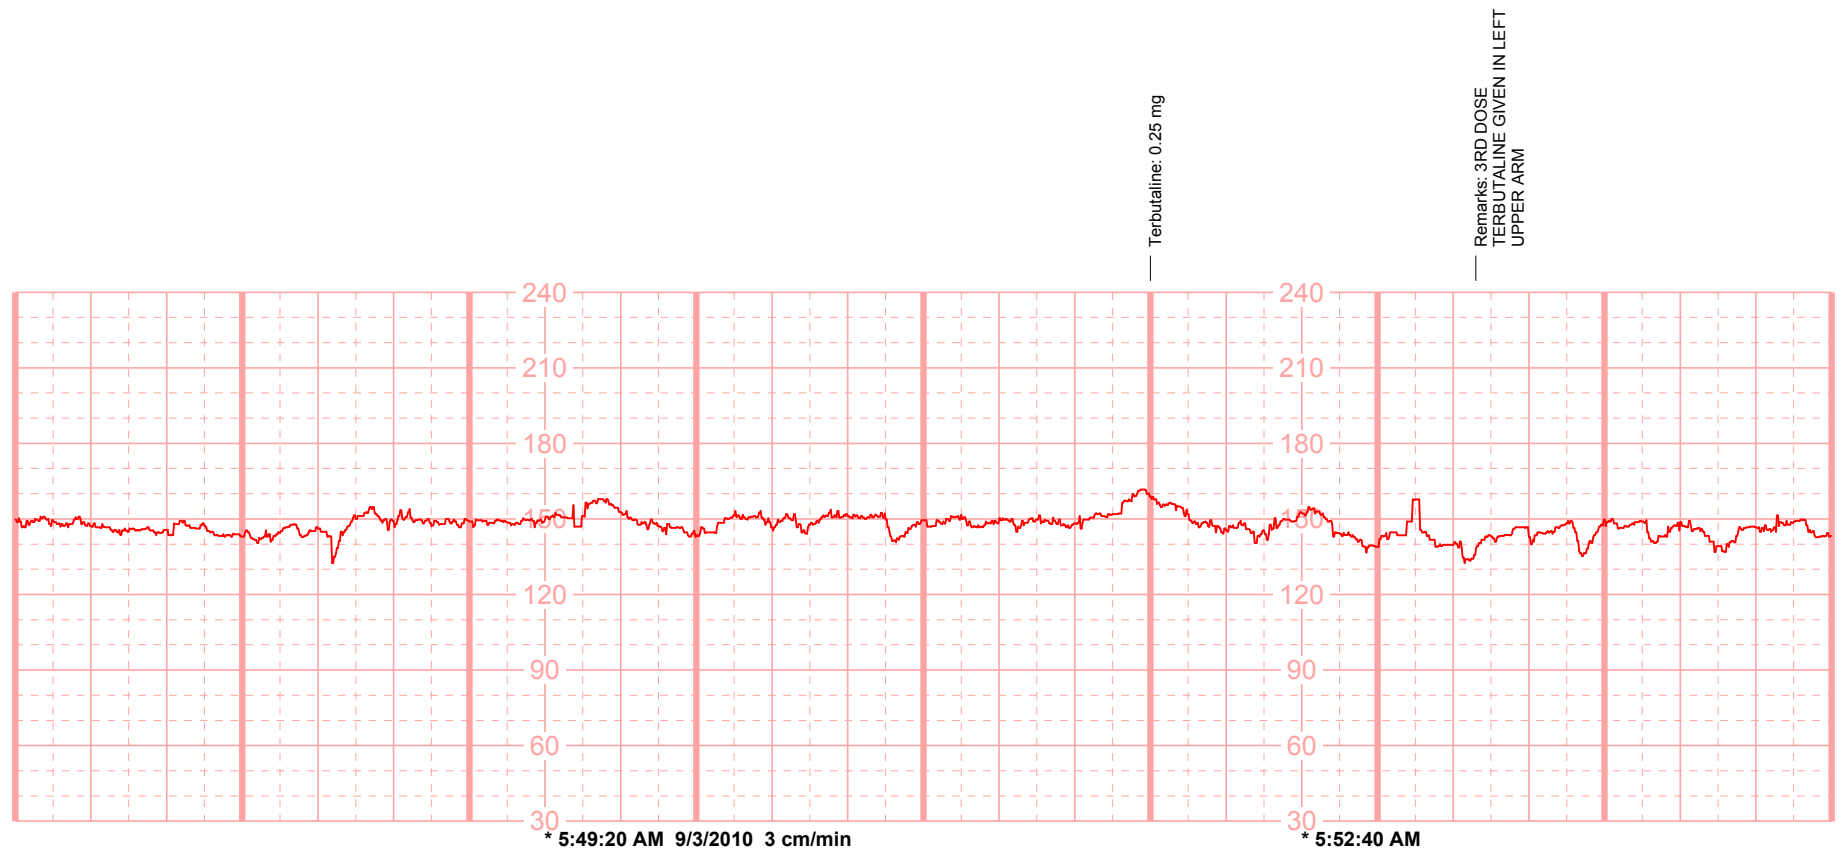

Contractions: every 4 - 6 minutes
 Contraction duration: 60 - 80 seconds
 Contraction intensity: moderate
 Contraction resting tone: palpates soft between uc
 Accelerations: present
 Decelerations: absent
 Baseline: 145 (15 min)
 LTV: moderate 6-25bpm

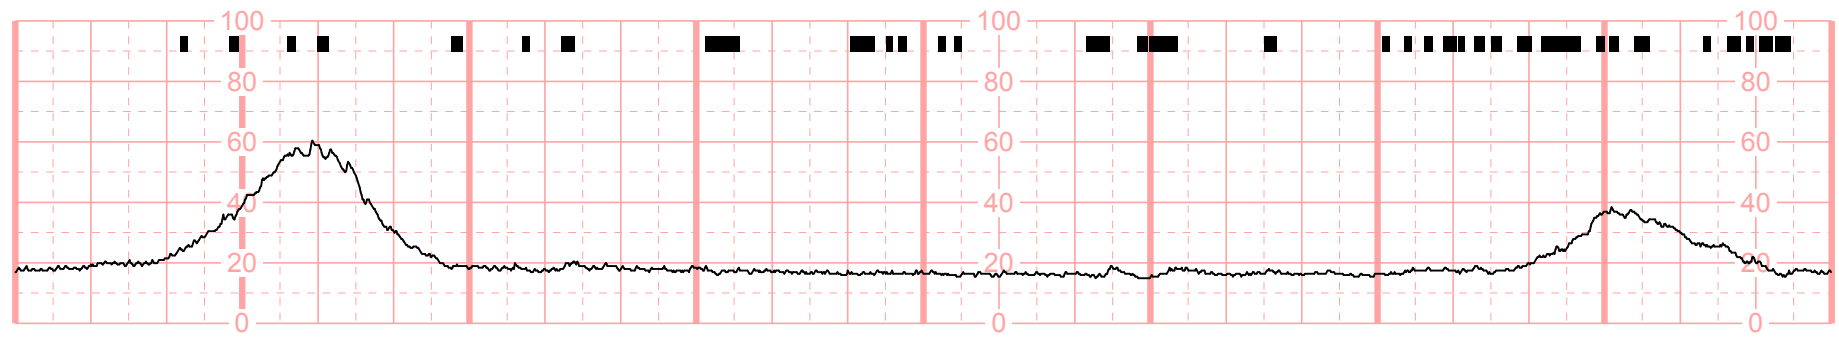

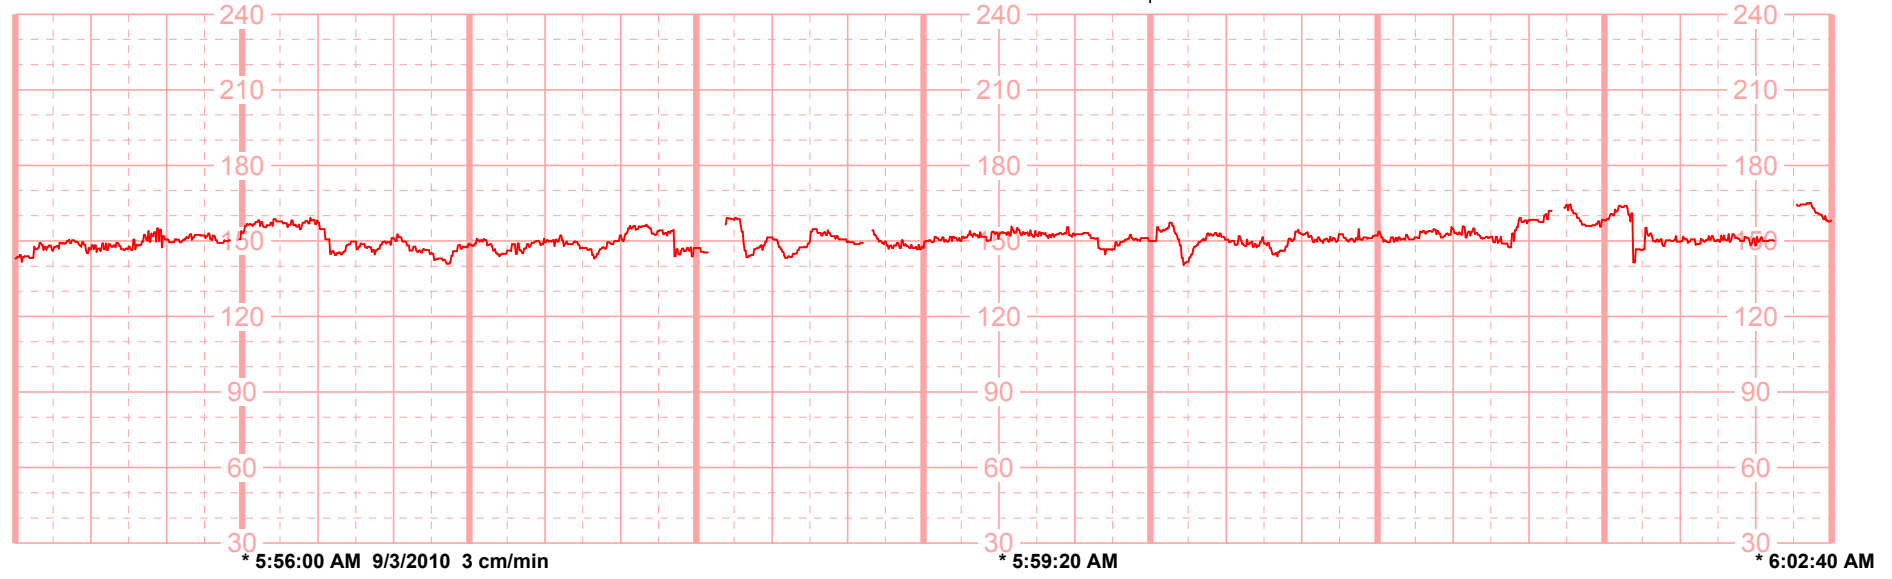

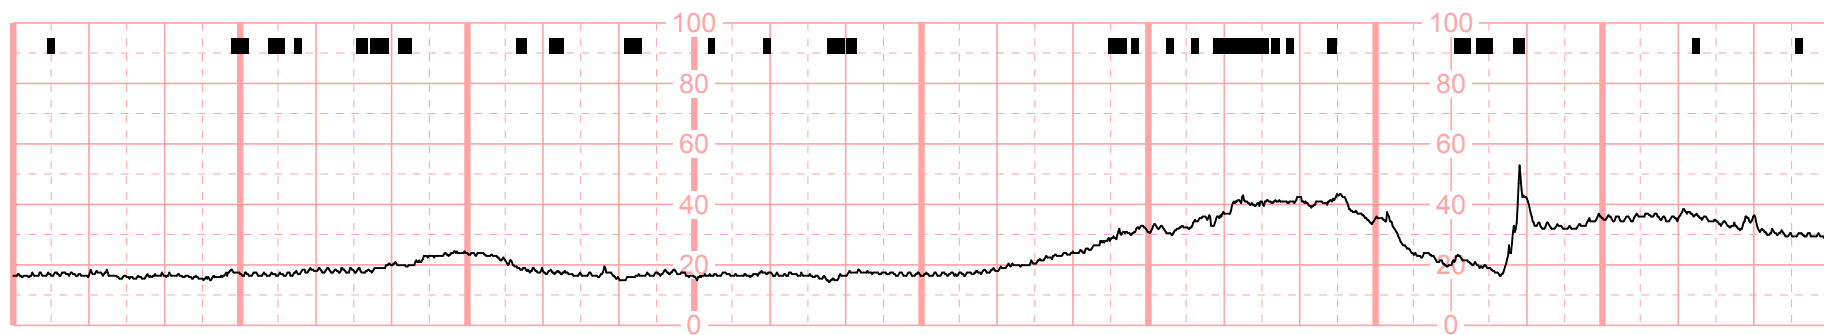

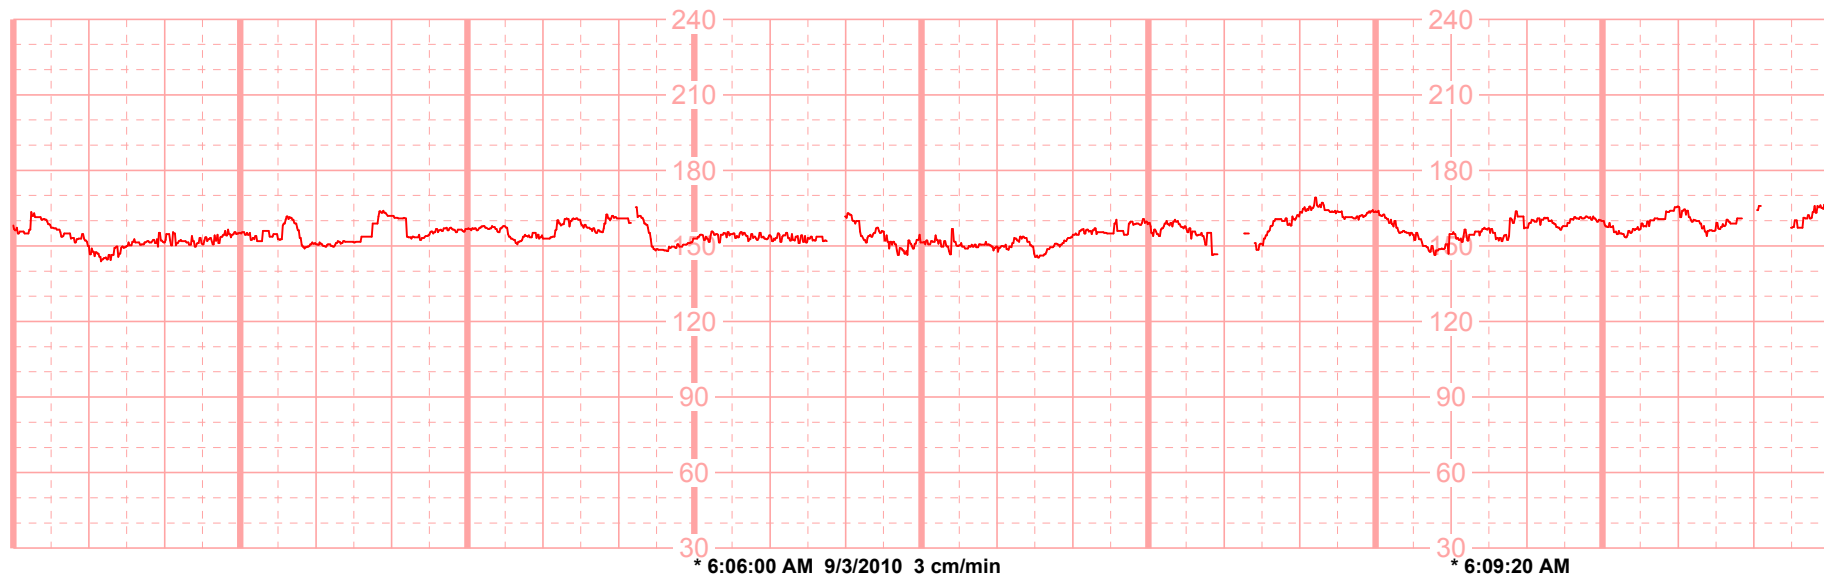

Contractions: every 3 - 6 minutes
 Contraction duration: 60 - 80 seconds
 Contraction intensity: moderate
 Contraction resting tone: palpates soft between uc
 Accelerations: present
 Decelerations: absent
 Baseline: 145 (15 min)
 LTV: moderate 6-25bpm

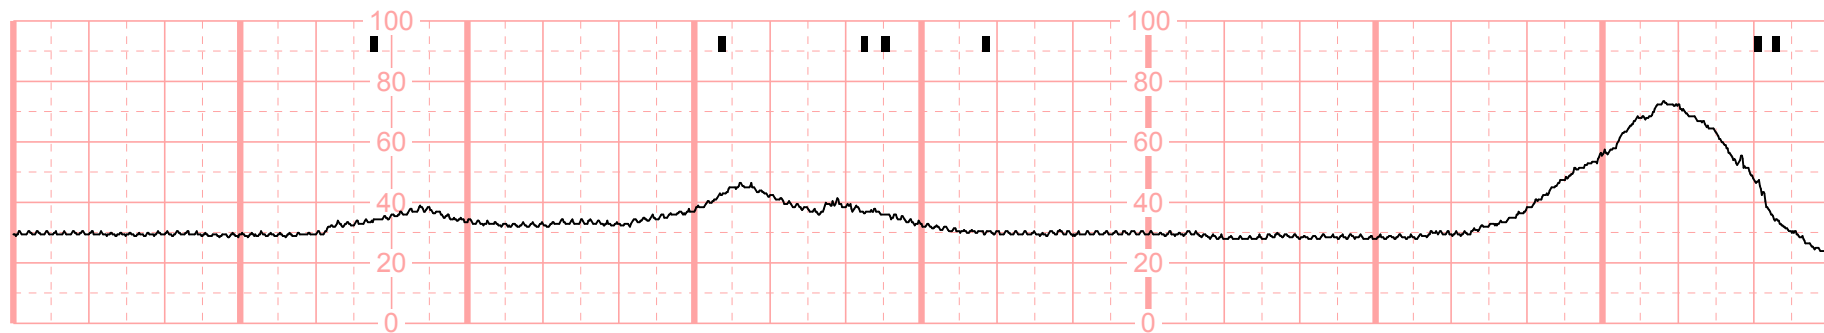

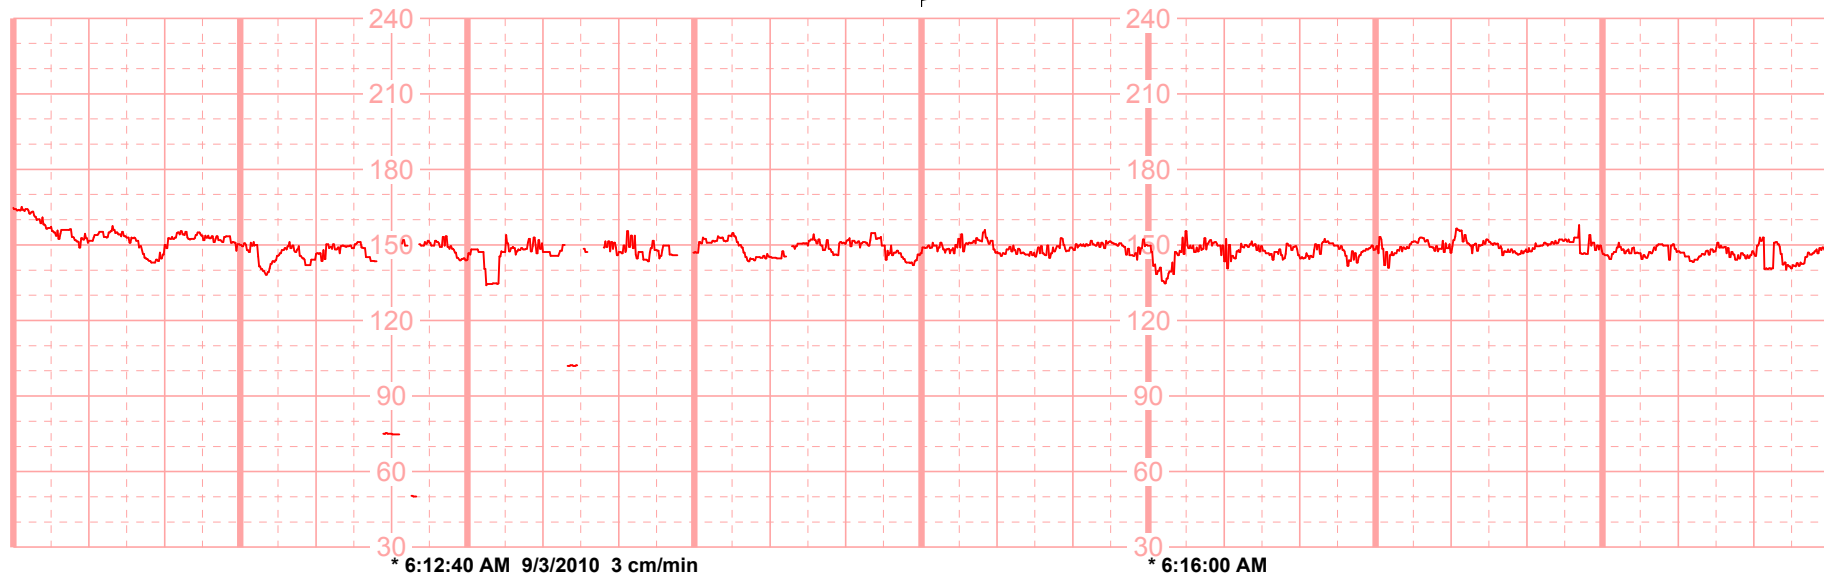

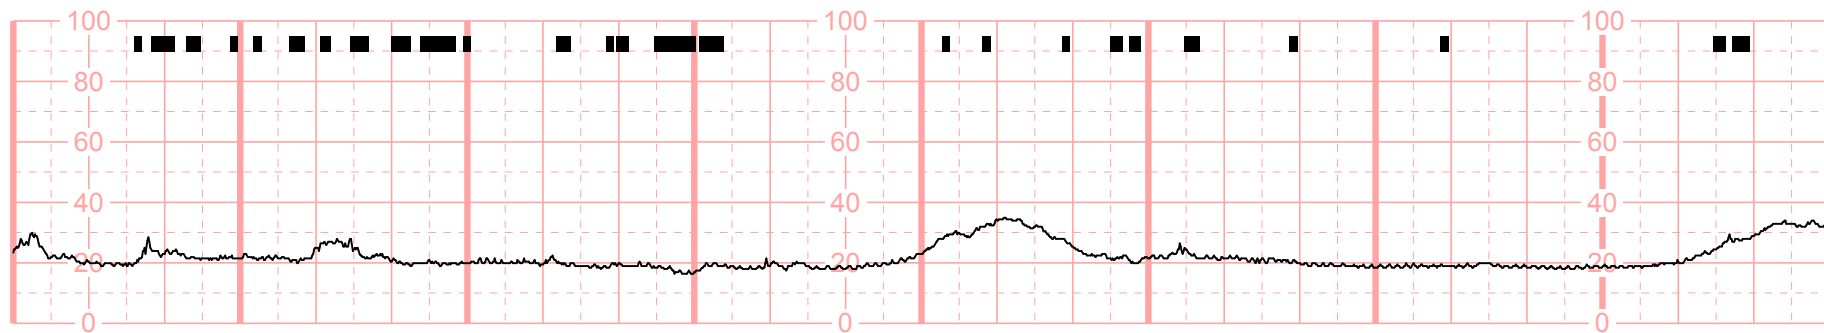

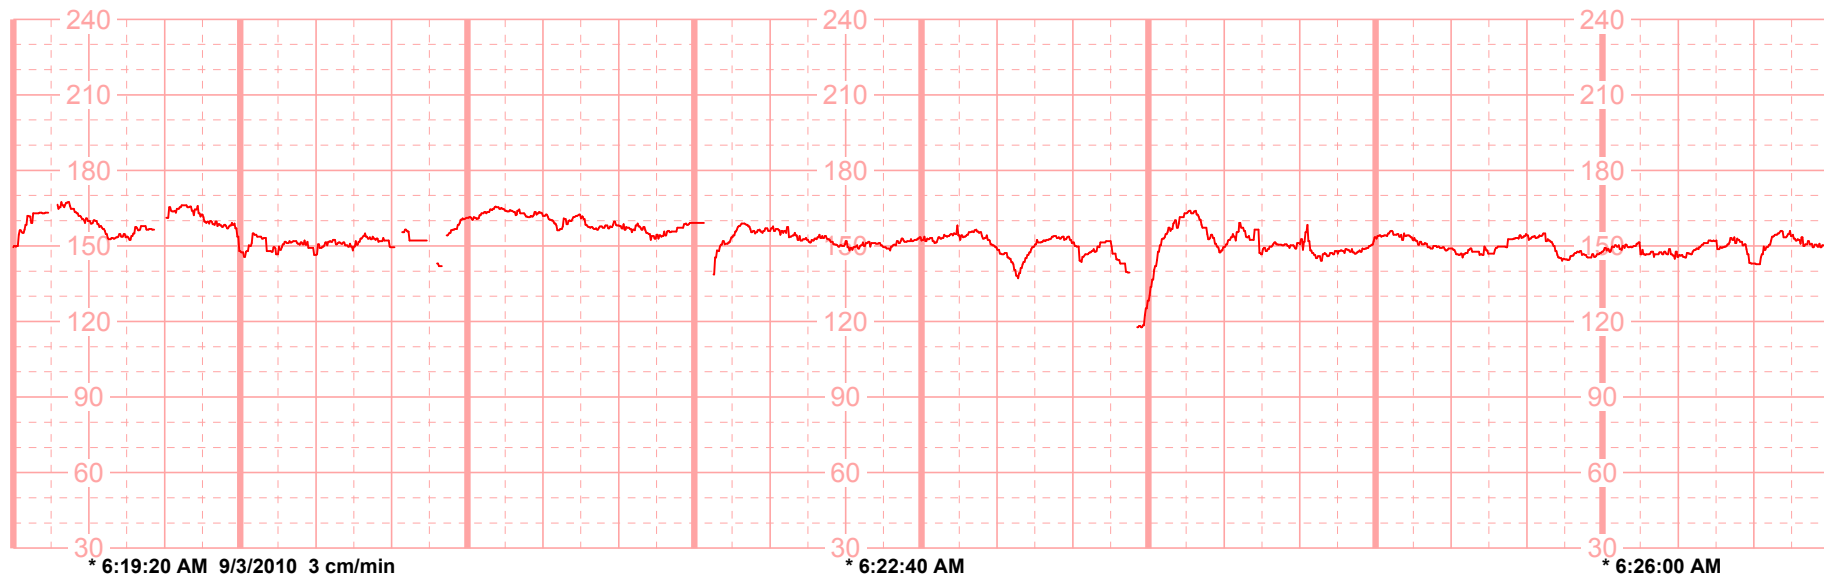

Contractions: every 4 - 6 minutes
 seconds
 Contraction duration: 60 - 80
 Contraction intensity: moderate
 Contraction resting tone: palpates
 soft between uc
 Accelerations: absent
 Decelerations: absent
 Baseline: 145 (15 min)
 LTV: moderate 6-25bpm
 LR: Updated (1000 mL)
 LR: Started (1000 mL)

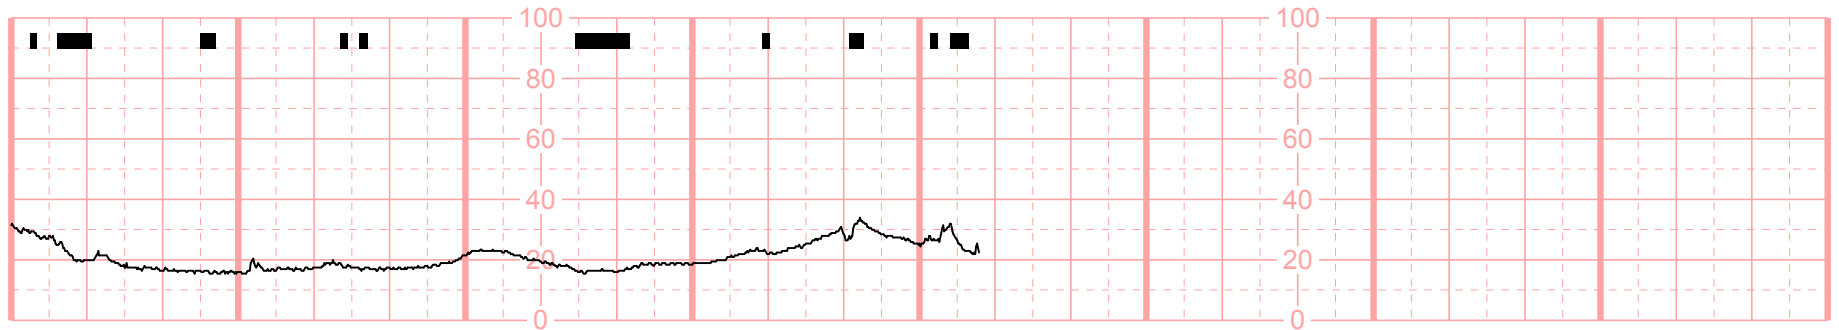

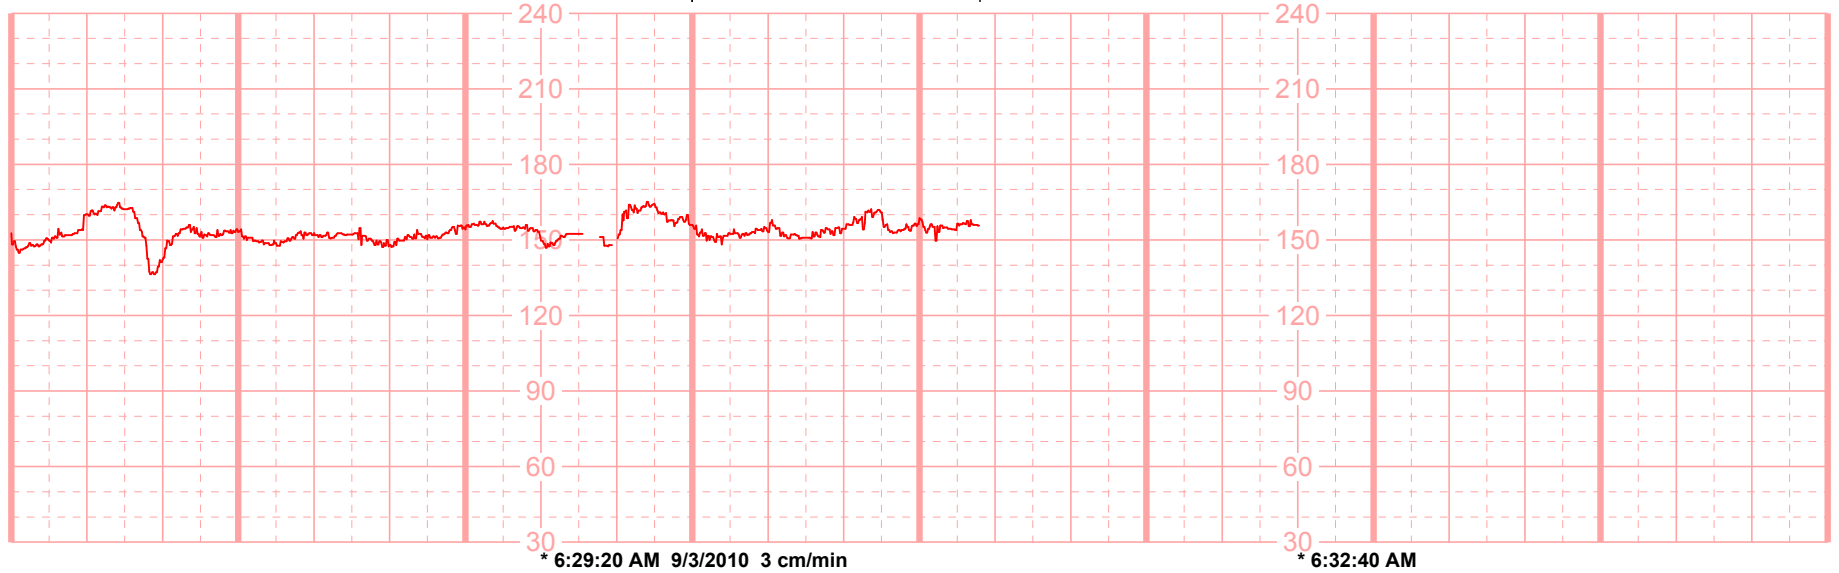

Contractions: every 4 - 6 minutes
 Contraction duration: 60 - 80 seconds
 Contraction intensity: moderate
 Contraction resting tone: palpates soft between uc
 Accelerations: present
 Decelerations: absent
 Baseline: 150 (15 min)
 LTV: moderate 6-25bpm

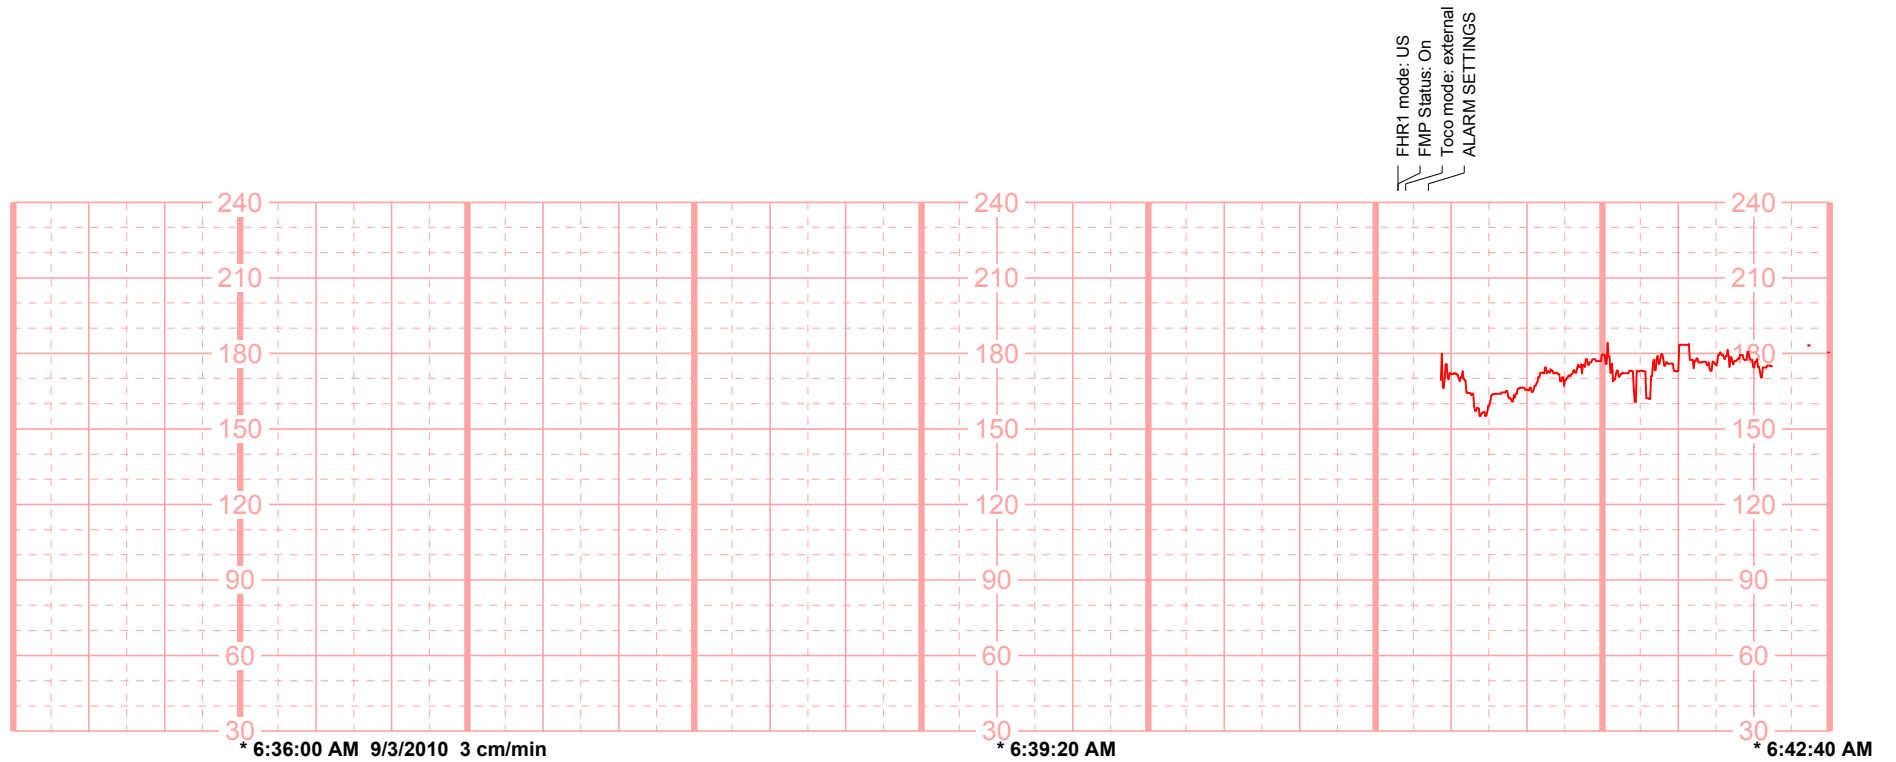

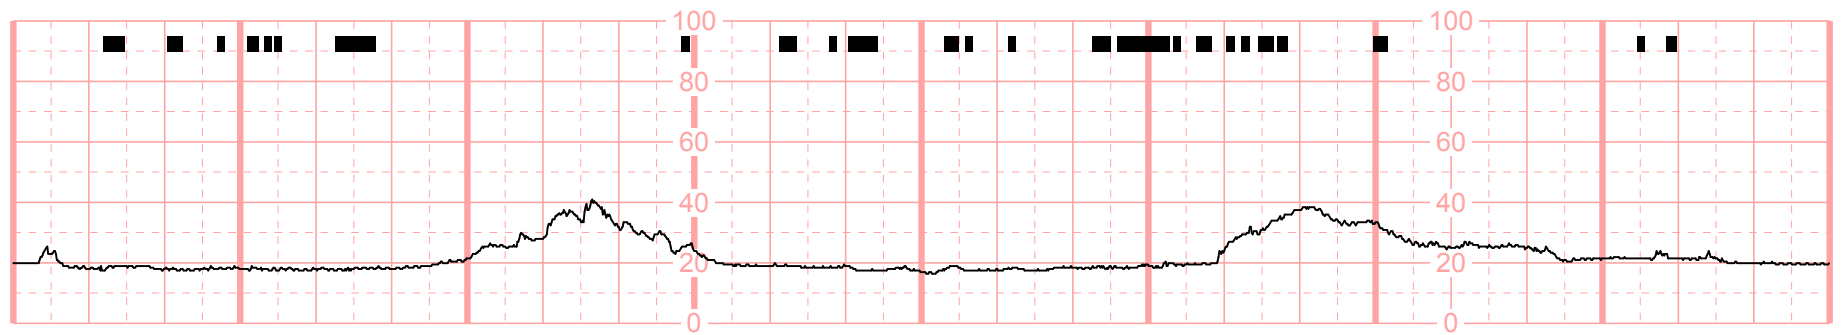

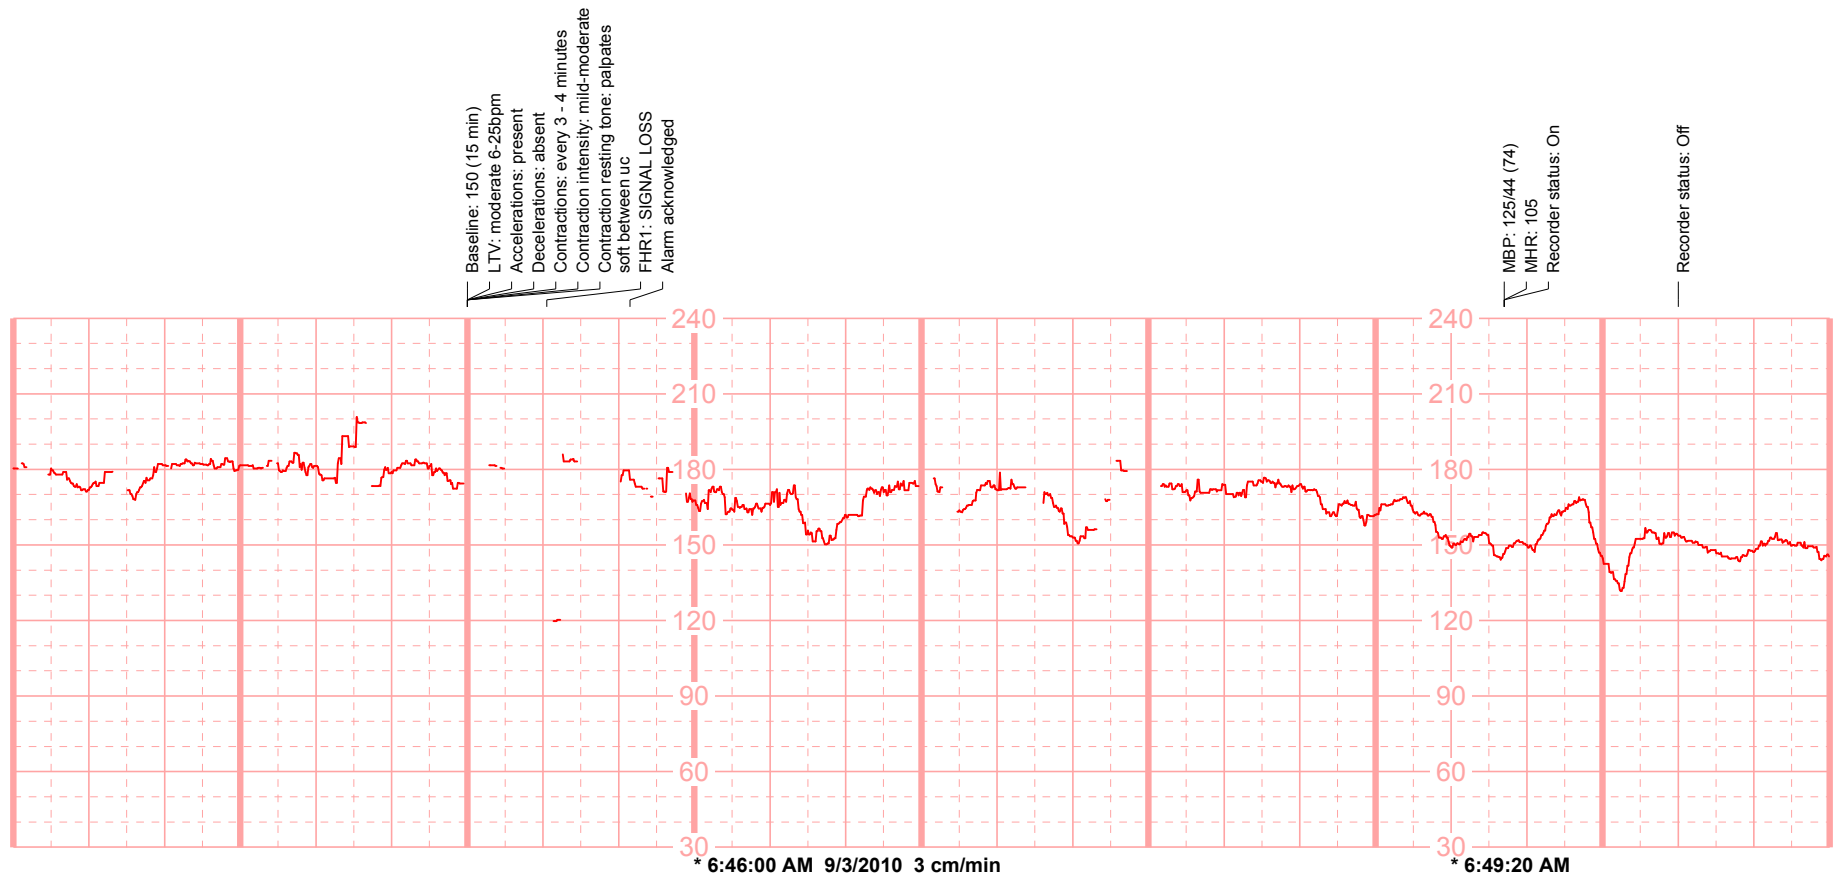

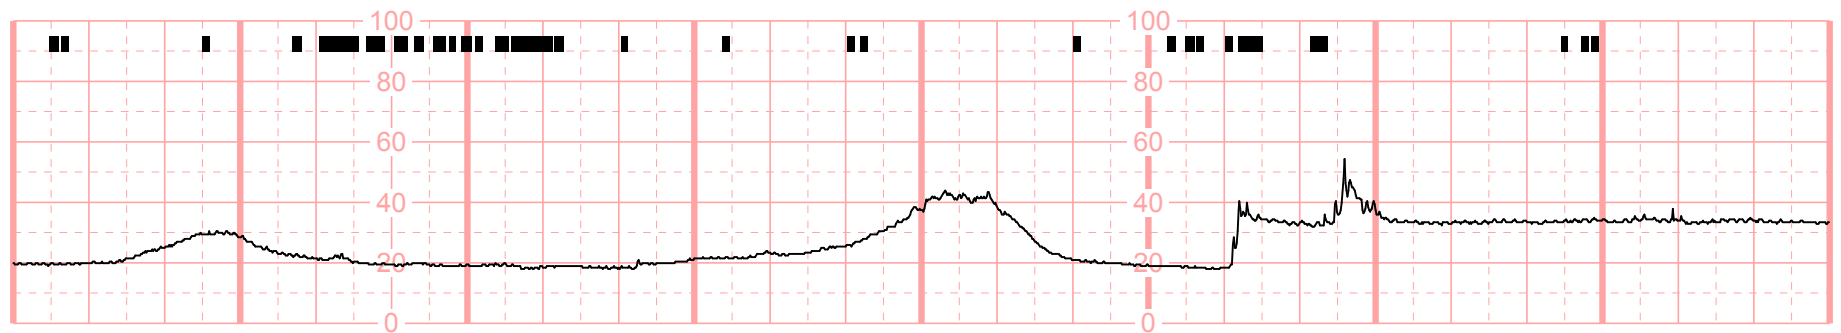

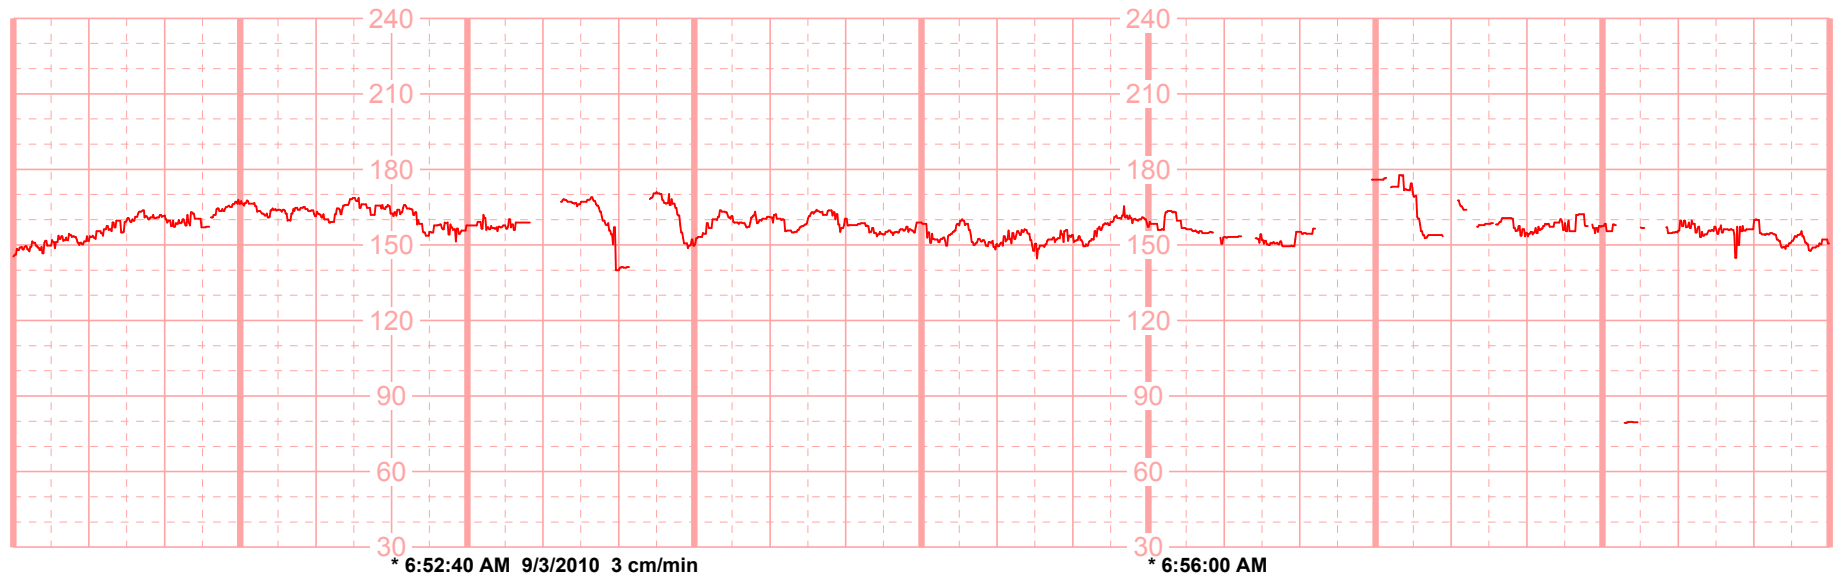

Contractions: every 4 - 6 minutes
 Contraction intensity: mild-moderate
 Contraction resting tone: palpates
 soft between uc
 Accelerations: present
 Decelerations: absent
 Baseline: 150 (15 min)
 LTV: moderate 6-25bpm

FHR1 mode: No transducer
 Toco mode: No transducer

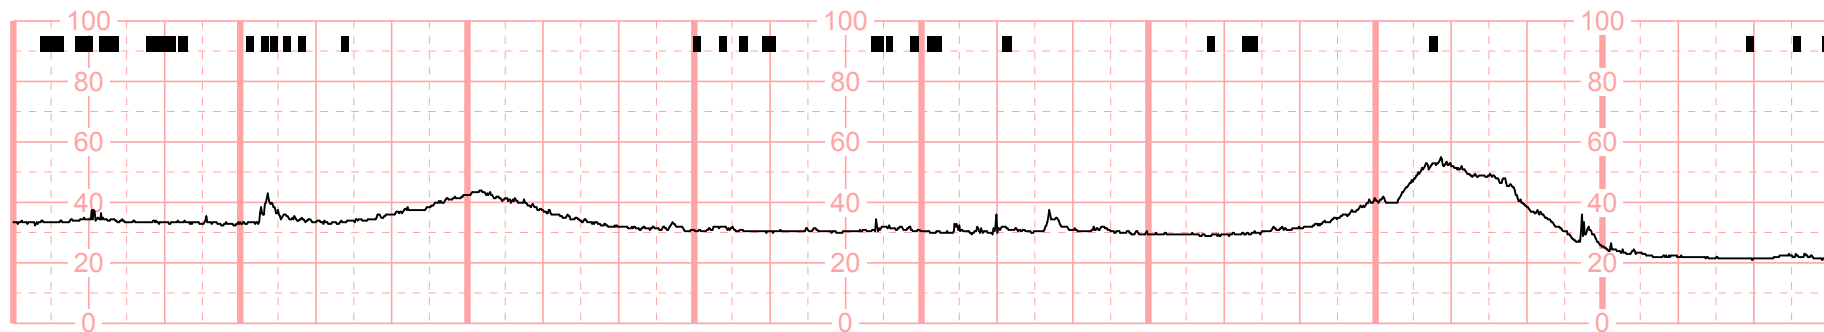

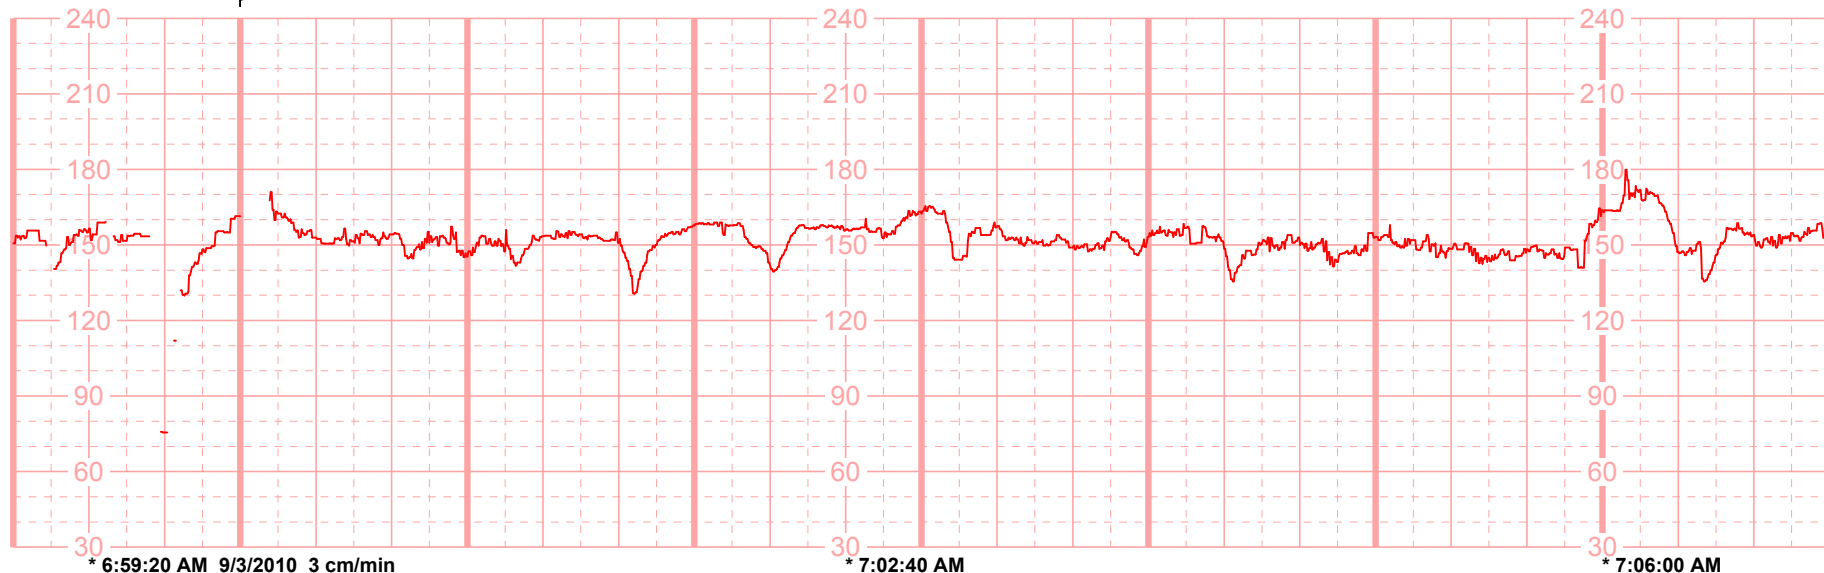

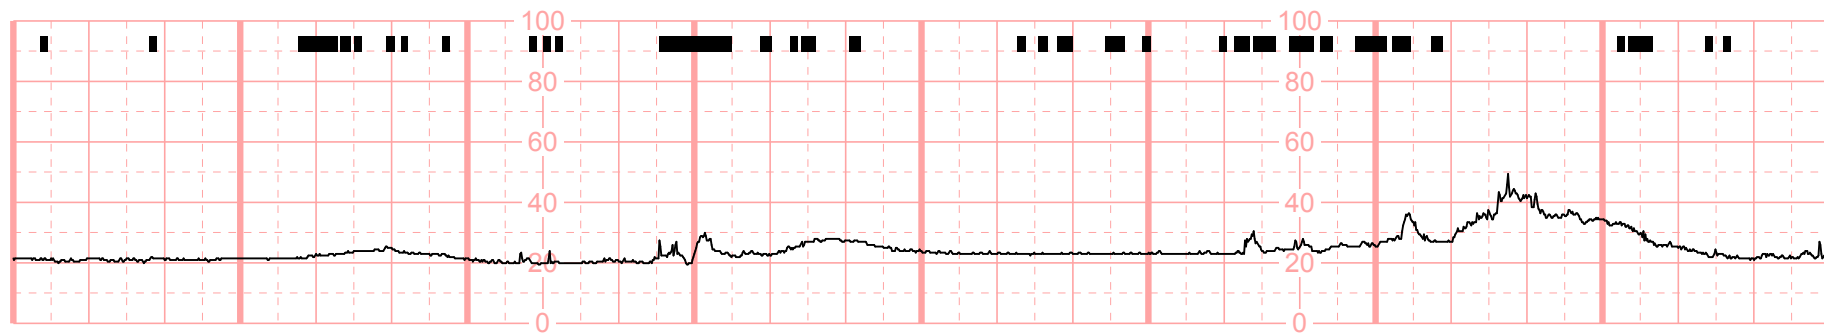

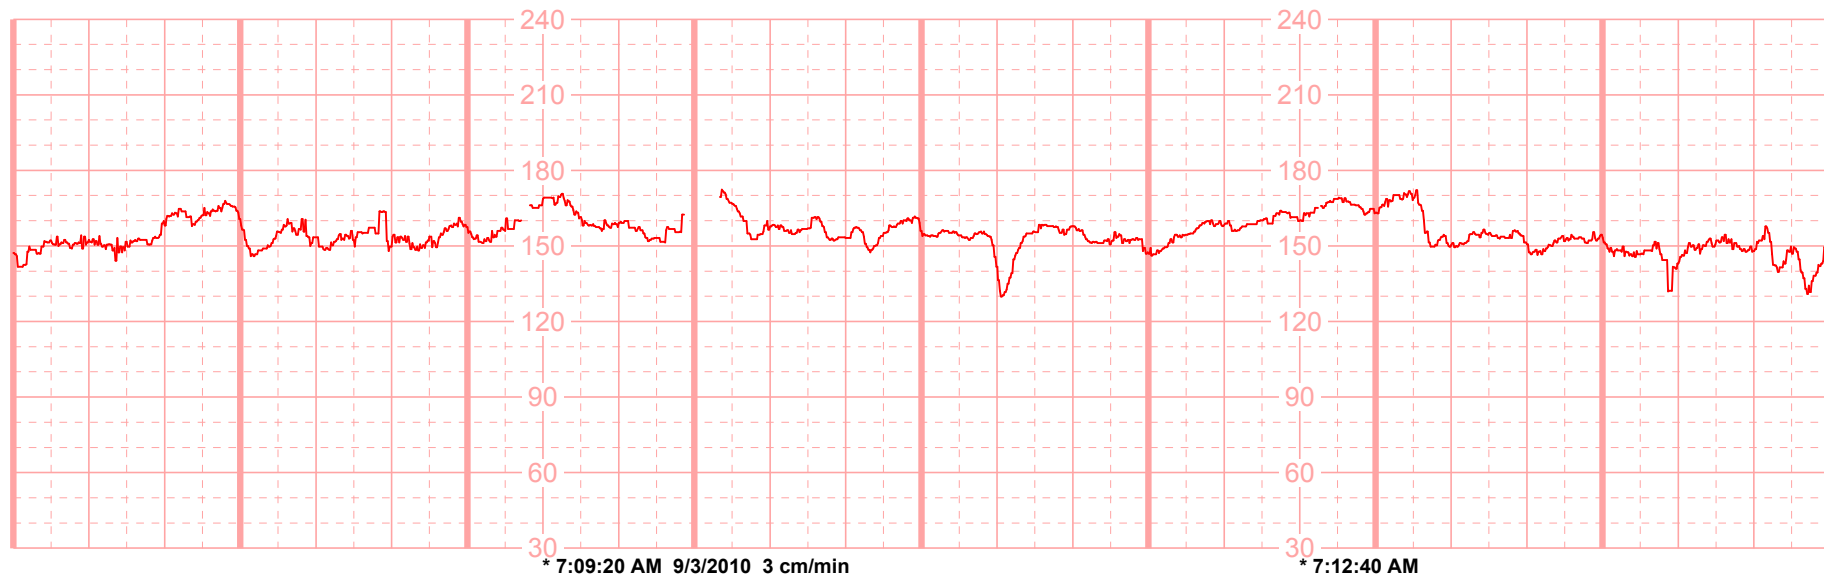

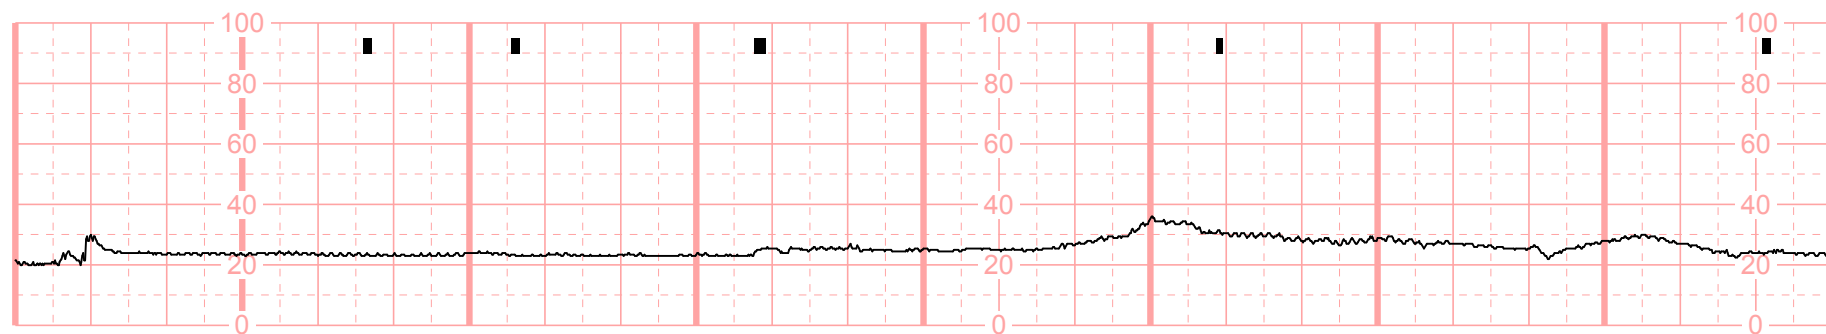

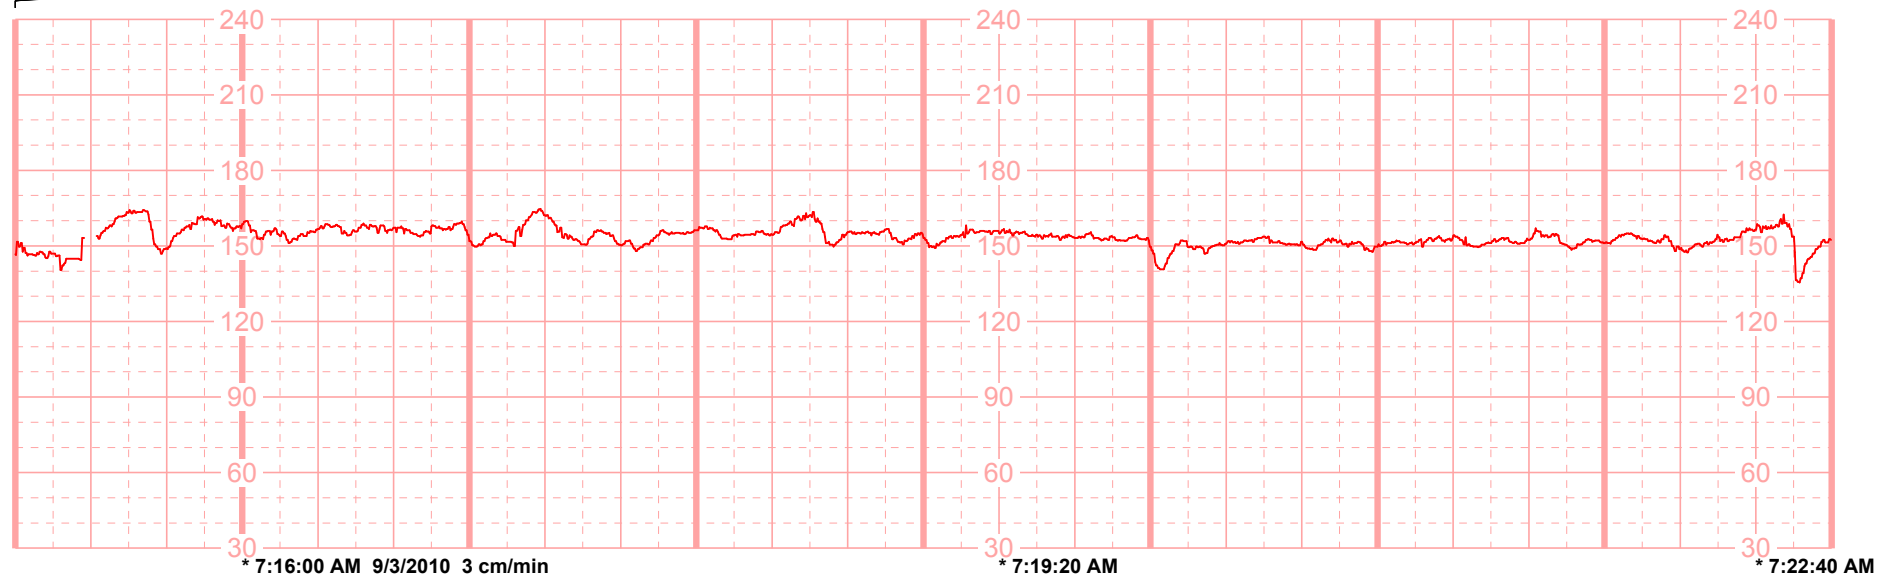

Baseline: 150 (15 min)
 LTV: moderate 6-25bpm
 Accelerations: present
 Decelerations: absent
 Contractions: every 3 - 6 minutes
 Contraction intensity: mild
 Contraction resting tone: palpates
 soft between uc

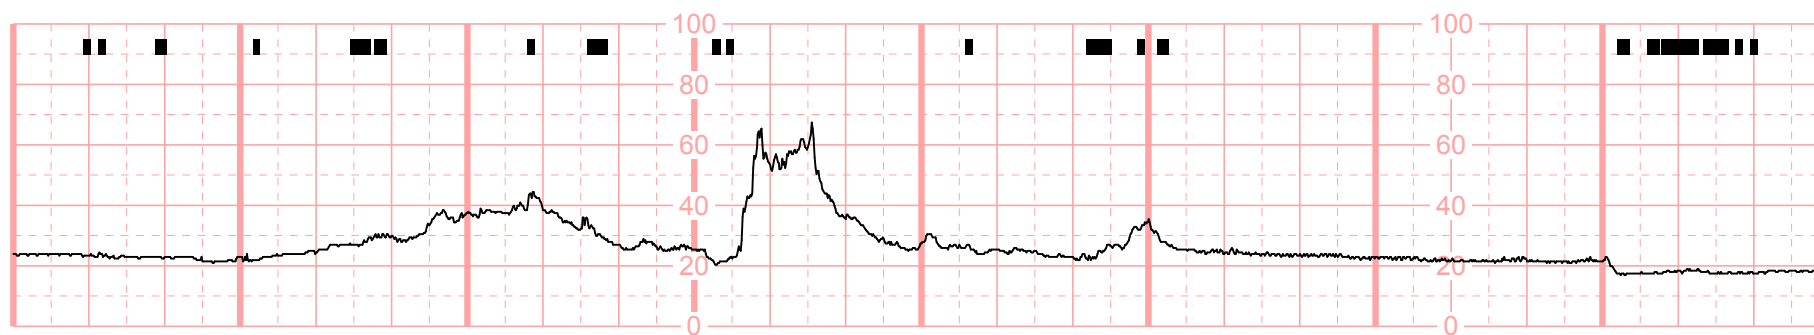

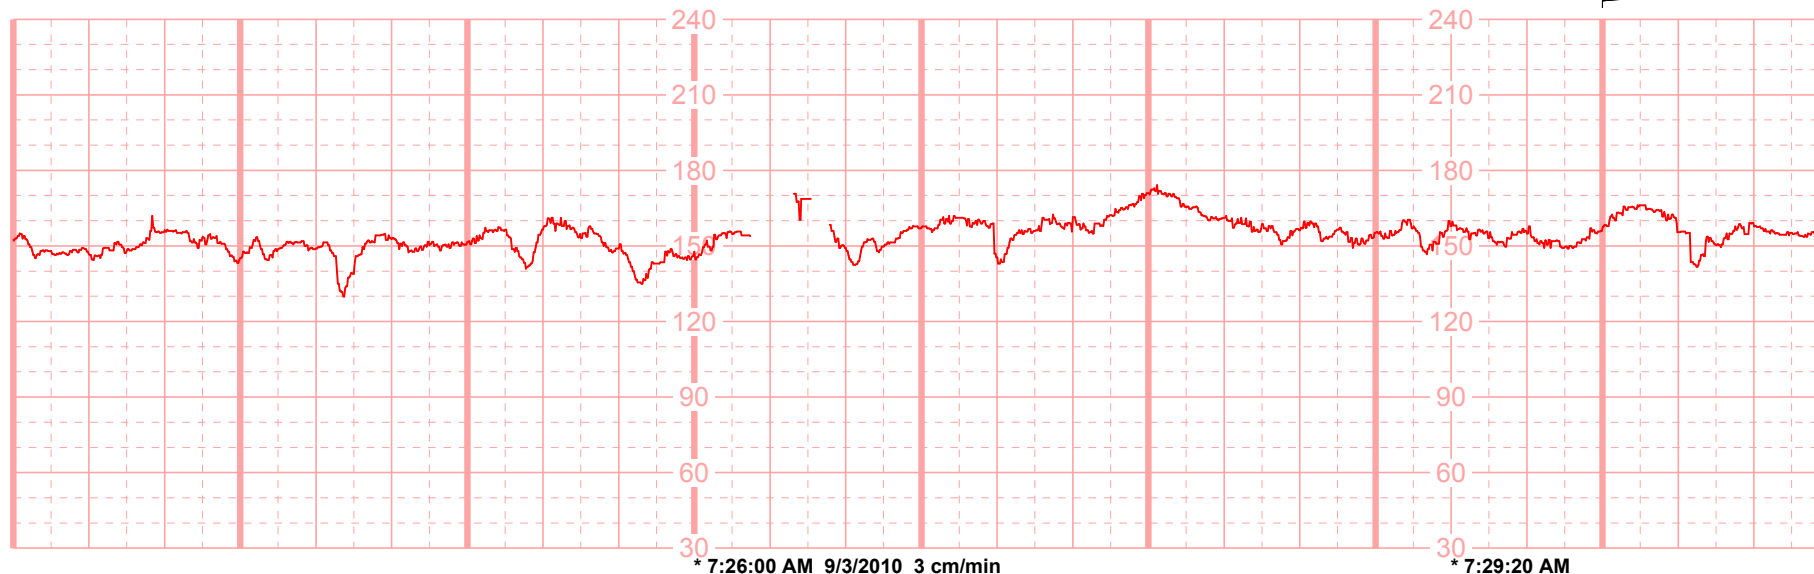

Contractions: every 8 minutes
[...]

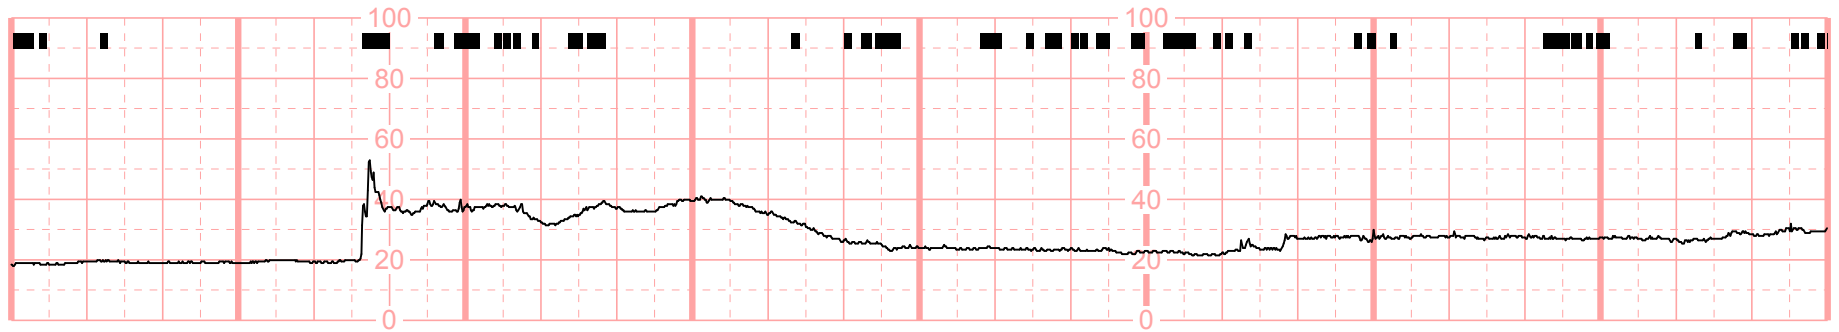

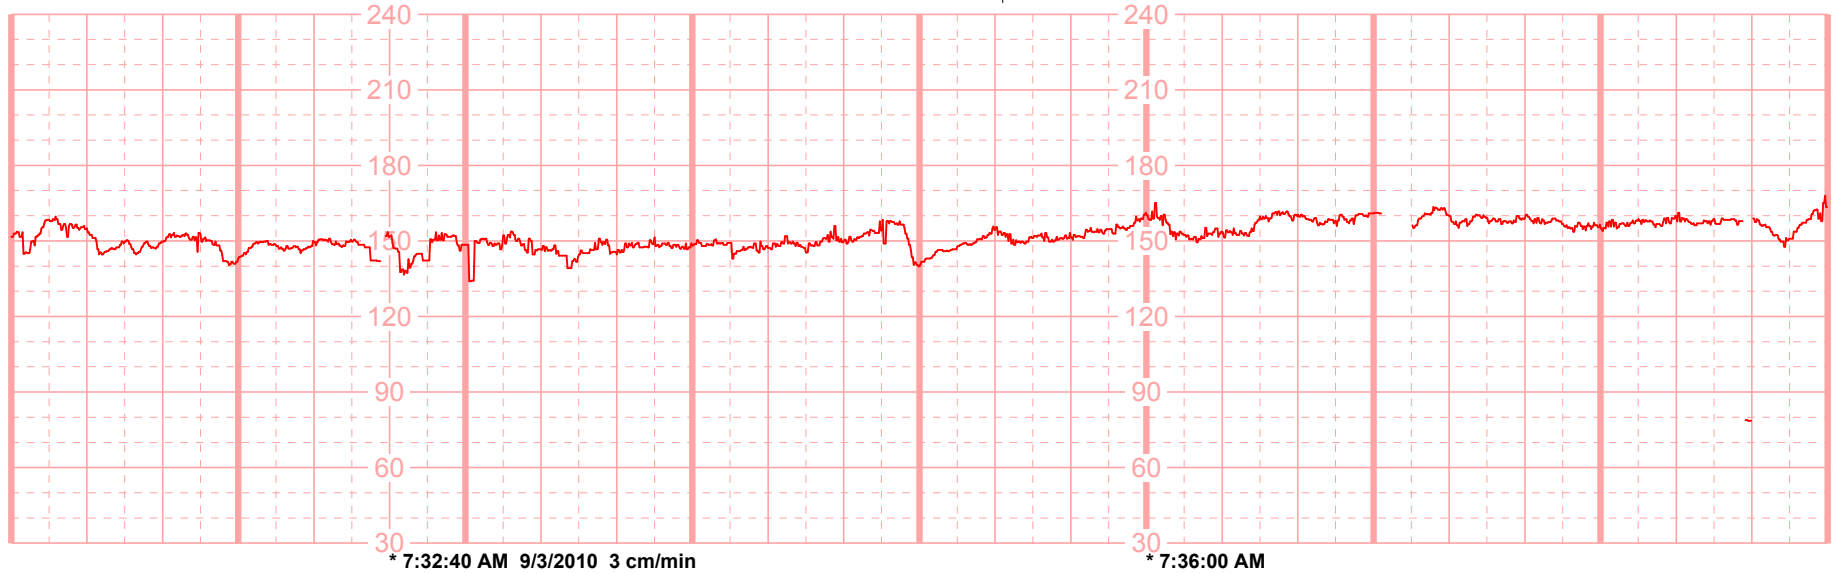

Contractions: every 8 minutes
 Contraction duration: 60 - 70 seconds
 Contraction intensity: mild
 Contraction resting tone: palpates soft between uc
 Baseline: 150 (15 min)
 Accelerations: present
 Decelerations: absent
 LTV: moderate 6-25bpm

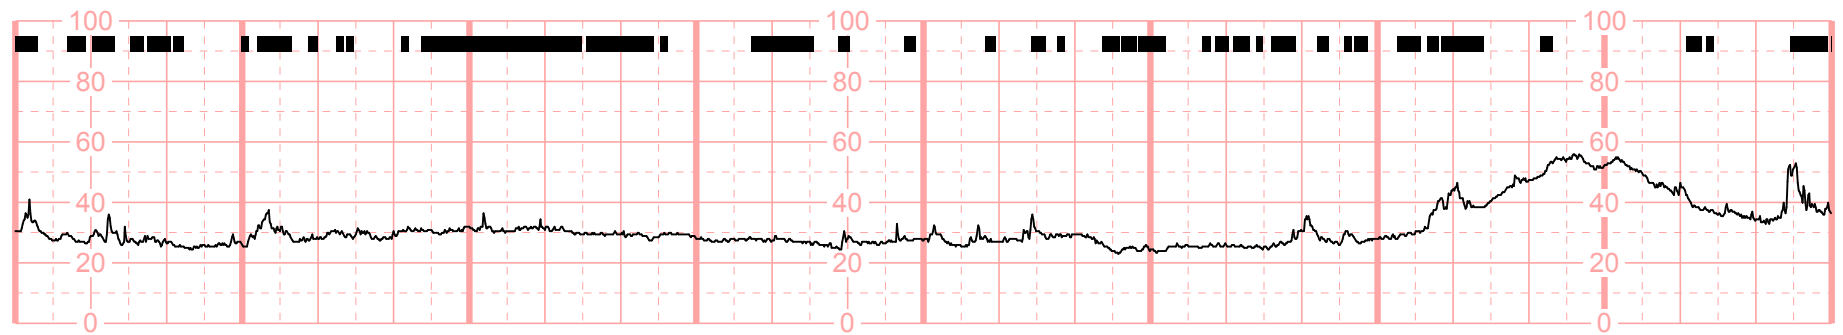

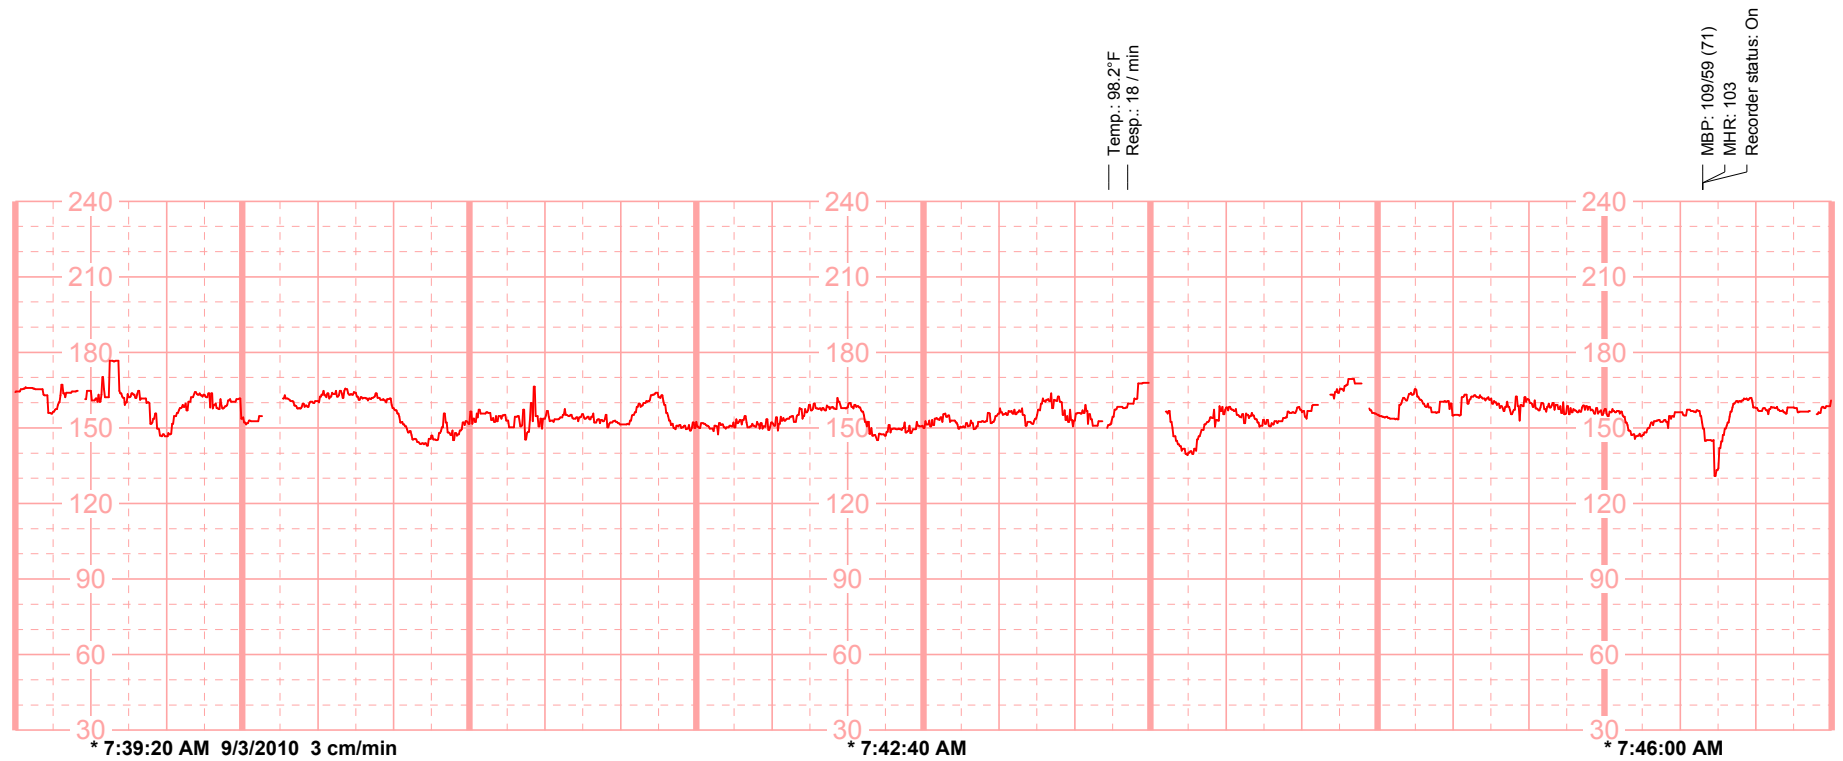

Contraction intensity: irregular,
occasional
Contraction resting tone: palpates
soft between uc
Accelerations: present
Decelerations: absent
Baseline: 150 (15 min)
LTV: moderate 6-25bpm

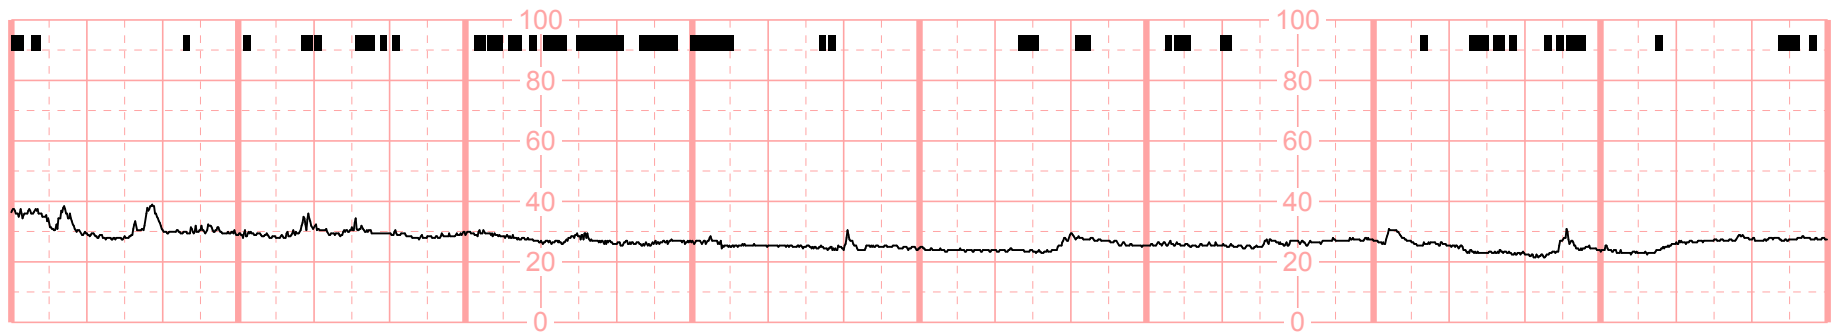

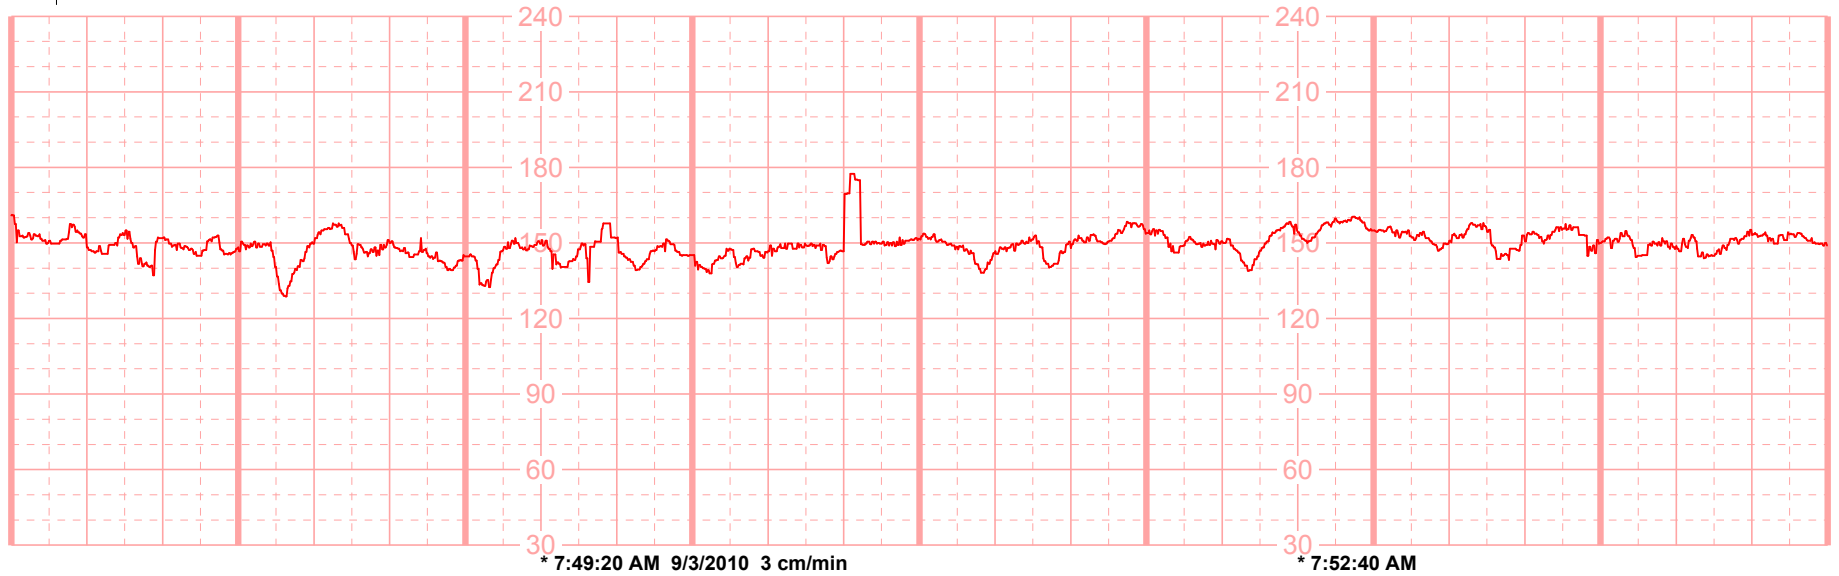

Remarks: CALLED MANATEE
MEMORIAL LAB AND WAS GIVEN
THE FFN RESULT WHICH WAS
NEGATIVE.

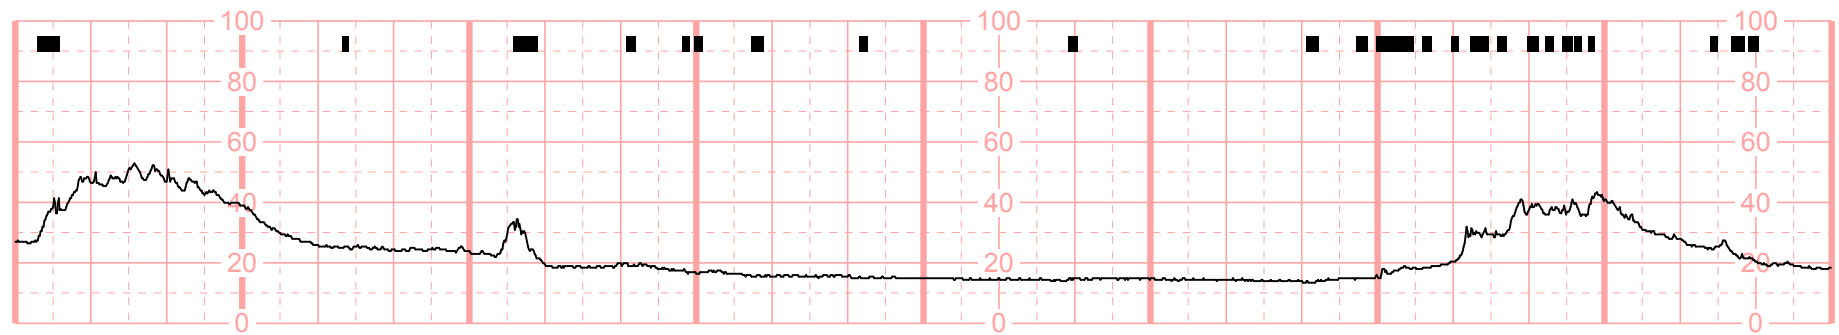

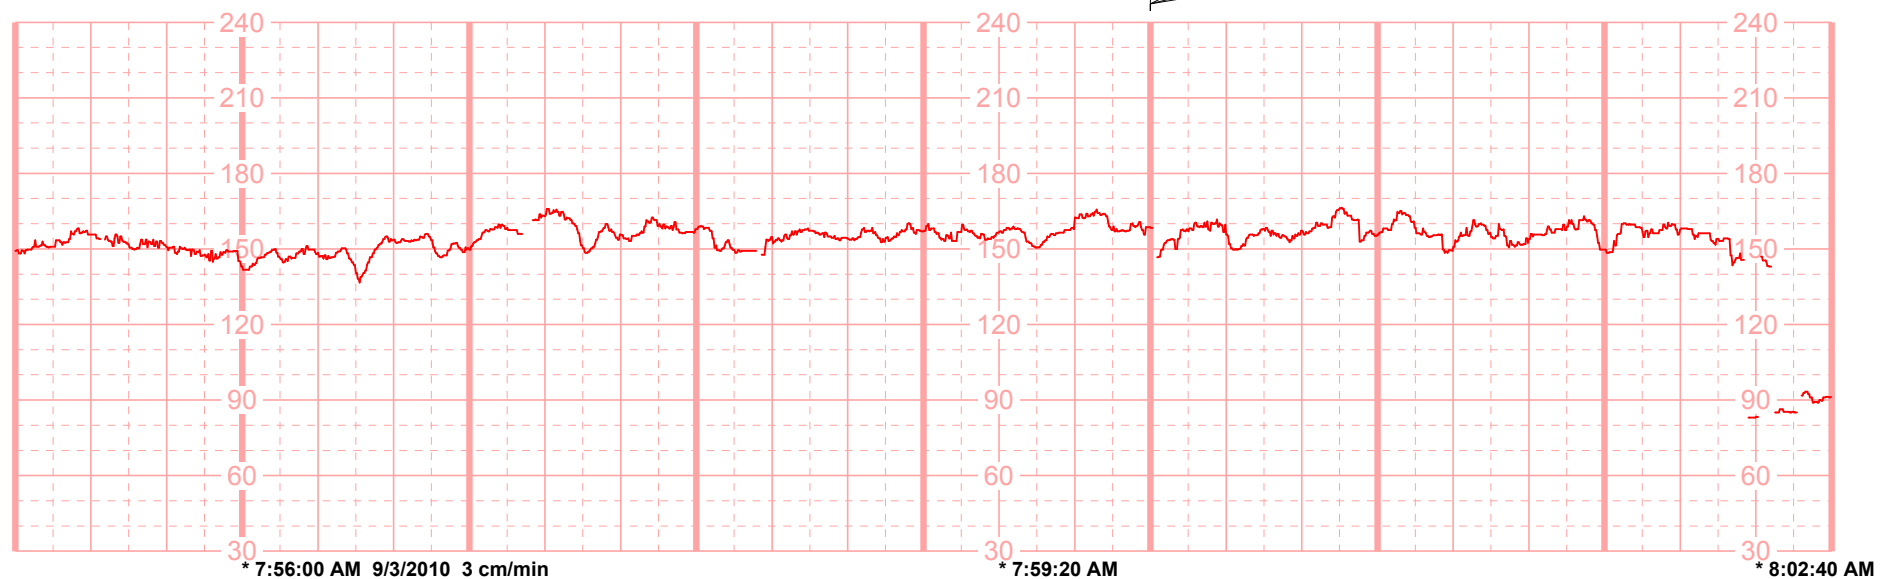

Recorder status: Off

Baseline: 150 (15 min)
Accelerations: present
Decelerations: absent
LTV: moderate 6-25bpm
